

ONE PATENT. MULTIPLE APPLICATIONS.

The Smart Smoke Vent Frame can be adapted across residential, commercial, marine, and recreational platforms.

KEY TAKEAWAYS

1. REDUCE ROOF DAMAGE

Vents smoke through the opening, not the roof.

2. SPEED EVACUATION

Activates automatically on smoke for faster ventilation.

3. SEAMLESS INTEGRATION

Retrofits into existing skylight and window designs.

4. ELEVATE YOUR PRODUCT LINE

Premium safety feature for high-rise and commercial projects.

5. SUPPORTS COMPLIANCE

Designed to support emerging smoke and life-safety requirements (NFPA / IBC).

1. SKYLIGHTS

Automatic venting for roofs and smoke release.

2. WINDOWS

Outward-opening window application for smoke venting and egress support.

3. BOAT VENTS

Adaptable venting for marine cabin and enclosed boat spaces.

4. RV VENTS

Roof vent integration for recreational vehicles and mobile living spaces.
