

## About BusR LLC

*From Here... You're Almost There!*

Our goal is to provide safe, reliable, convenient, and comfortable transportation for your company. Whether it is jobsite service, airport Shuttle service, or event service, we are your prominent transportation provider in Temple, TX and will help you with your company's needs. BusR LLC, provides superior customer service and exercises a positive attitude that has a great impact on the passengers as well as the company, client and drivers alike.

## BusR LLC Drivers

We pride ourselves with having world class drivers to represent our company, so you can be confident that your company will be represented in the same manner. All of our Drivers are vetted and are DOT (Department Of Transportation) compliant and operate under the FMCSA (Federal Motor Carrier Safety Administration) guidelines. BusR LLC uses a third party compliance company to ensure the drivers stay in compliance.

## BusR LLC Buses

Currently, we use Bluebird Vision, decommissioned school buses. All are 2013 or newer, with untorn seats and each bus is equipped with GPS tracking and Forward facing and rear facing dash cams. Every bus has working air conditioners and heaters. We have a dedicated maintenance company who provides our buses with preventive maintenance and major maintenance that keeps us consistently running to top performance. The Buses are cleaned and sanitized at the end of each shift making them ready for the next shift or the following day. Once a week they are cleaned and sanitized thoroughly by a commercial vehicle cleaning company. All buses are equipped with first aid, body fluid kits, and fire extinguishers. They are also all designated as non-smoking and non-vaping vehicles.

Partnering with BusR LLC is a great way to improve your construction business. It's a convenient and cost-effective way to transport employees and Trade Workers, and it can also help you to impress your clients and stakeholders. If you're looking for ways to improve your construction company, then partnering with a BusR LLC is a great place to start.

## The Obstacle

There are many moving parts on construction sites that pose a number of safety risks. Today's job sites are congested with heavy equipment, water trucks, delivery trucks, trailers, Polaris's, Gators, ATVs, and materials; add the trade workers' personal vehicles. As a result, there is an increased risk of job site accidents and insurance claims.

Construction companies know that employee and contractor transportation can be a challenge. Trying to coordinate everyone's schedules and make sure they arrive on time can also be a challenge.

## BusR LLC is the Solution

BusR LLC will provide and operate buses that can transport up to 48 passengers. Providing activity buses that are practical for job sites, we offer your employees comfort and convenience. They can relax while being transported by our world class drivers and experience great customer service with a smile!

By partnering with BusR LLC, you can get all of your employees, contractors, and trade workers to the job site safely and efficiently. This will save your company time and money, more than that, it will make your construction project run fluently.

## Shuttle Employees, Contractors and Trade Workers

Shuttling employees and contractors to and from job sites is one of the main ways that BusR LLC can help your construction company. Bus transportation will minimize traffic on your jobsite, from off site parking or onsite parking. With BusR LLC, you can get all of your employees and contractors to the job site quickly and efficiently. This will save you time and money by minimizing worksite accidents and injuries, and it will help your construction company meet your manpower, time, safety, and workflow requirements.

## Operation

BusR LLC management team is first in its field with 40 years of collective driving and business experience. Once we determine your transportation needs, we will procure and designate buses and drivers to suit those needs. Average work days may vary depending on your workflow, weather, and other constraints. Typically we bill for 8 hour and 12 hour shifts, 5-6 day work weeks but are flexible to accommodate any work schedule you may propose. We work closely with you to resolve any logistics issues, stops, times, and personnel movement. Some sites only require a split shift 4 to 6 hours in the morning and 4 to 6 hours in the evening, where other sites desire an all day presence to allow for worker movement during lunch time, and breaks. Drivers arrive 15-30 minutes prior to start time to properly inspect the bus they will be driving as per Department of Transportation regulations and also maintain records documenting all maintenance issues.

## Other Benefits

### Reduced Stress

Another benefit of working with BusR LLC, is reduced stress levels for your trade workers and employees. When they don't have to worry about driving themselves on site, they can focus on the task at hand. This will make them more productive and could even lead to fewer mistakes, leading to a safer job site.

### Employee Bonding

Having all of your employees travel together presents a great opportunity for them to bond. This can lead to a stronger team atmosphere and better communication. When everyone is on the same page, your construction project will run more effectively.

### Safely Transport Stakeholders to Work Sites

You can impress your stakeholders or VIP's who wish to tour the jobsite. BusR LLC has Executive class, as well as working class Buses. This will show your clients that you're a responsible and professional business, which could lead to opportunities for future work.

### Transport for Company Events

BusR LLC goes well beyond just transporting employees and Trade workers to and from job sites. You can also use us for company events, such as team-building exercises or holiday parties. This will make your employees feel appreciated and help them to bond with their coworkers.
