AMAYOKARE

Specialized expertise led by Dr. Sonnie E. Oyama MD, CIME, MMed, MM, FAIDH, FRACGP, FACHI, CCBOM, MRO.

The Vampire Facelift® procedure combines the science of hyaluronic acid (HA) fillers and your own platelet rich plasma to deliver youthful, natural beauty that is as unique as you.

HOW DOES THE VAMPIRE FACELIFT® WORK?

The Vampire Facelift® procedure begins with a simple blood draw from your arm. Using instrumentation approved by the FDA for isolation of platelet rich plasma (PRP), your provider processes your blood at the bedside to isolate the PRP. This takes about 10 minutes. Next, your provider uses hyaluronic acid fillers (like Juvederm® or Restylane®) to add a natural collagen scaffold (based on your facial structure and the mathematics of beauty). Then, your provider injects PRP into the face so that the body's own healing process triggers the regrowth of new tissue and blood flow to recreate your younger face. Finally, you apply our patented unique cream Alter® to enhance the effect of the Vampire Facelift® procedures and maintain its benefits long-term.

WHAT ARE THE BENEFITS?

- Non-surgical.
- Drug free.
- Refreshed skin color.
- More youthful, lifted face shape with collagen replenishment.
- Smoother skin tone.
- Tissue regeneration.
- Natural shape.
- Quick recovery, (usually able to go to dinner that night).
- Fading of scars.

THE VAMPIRE FACELIFT®

IF YOUR FACE SHOWS:

Droopiness, dullness or more “gray” than rosy colored cheeks, then the Vampire Facelift® could be the procedure for you.

WHAT CAN THE VAMPIRE FACELIFT® DO FOR YOU?

You can experience a fresher more youthful appearance skillfully designed for your face. Most clients report an increased vibrancy and glow to their skin. Results may vary.
