The O-Shot® is an advanced, non-invasive regenerative medicine for women's health and vitality. Women report significant improvement in symptoms. Results may vary.

HOW DOES THE VAMPIRE O-SHOT® WORK?

The O-Shot® procedure is a quick, usually painless, 20 minute, non-surgical procedure that begins with a simple blood draw from your arm and then platelet rich plasma (PRP) is extracted and injected into the numbed area of the clitoris and upper vagina. There is no recovery time and results are almost immediate in some women.

WHO CAN GET IT?

Almost anyone can get an O-Shot®. Your doctor or nurse will help you determine if this is the best procedure for you.

WHAT ARE THE BENEFITS?

- Non-surgical.
- Drug free.
- Better, healthier sex.
- 95% experience resolution of urinary incontinence.
- Mesh pain can improve.
- Enjoy sexual relations on the day of procedure.
- Increased sensitivity and desire.
- Tighter vaginal skin.
- Almost instantaneous results.
- Fast and relatively painless.

Enjoy a better and healthier sex life!
