National Conference on

Innovations and Technology for Rural India

(ITRI - 2018)

This national conference aims to bring physicists, chemists, material scientists, life scientists, innovators and renowned speakers on a common platform to discuss and present interdisciplinary research and innovations for rural applications. The scientific program paves a way to gather visionaries through the plenary lectures, research talks and presentations to put forward thought-provoking strategies for 'building scientific framework' and 'uplifting people's life' in rural areas. Topics of interest for submission include, but are not limited to:

- Nanomaterials and Nanotechnology
- Plasma Technology
- Alternate Energy Materials
- Energy Storage Systems
- Smart and Intelligent Materials
- Rural IOT: Smart Villages
- Affordable Healthcare
- Biomaterials and Biotechnology
- Drug Design and Delivery
- Tissue Engineering
- Bioimaging and Theragnostic Applications
- Sustainable Development
- Smart and Organic Cropping
- Rural Resource Management
- Waste Management

PLENARY SPEAKERS

Prof. (Dr.) Anil Kumar Gupta

Founder, National Innovation Foundation, Honey Bee Network, SRISTI, and GIAN, Professor IIM Ahmedabad

Prof. (Dr.) Devesh Kumar Avasthi
