Protection and safety for your shipments.

Different sizes, gauges and colors available.

## Major Benefits of Pre-Stretch Include...

- There are many benefits to using pre-stretched film, users get the same (or better) load stability with less product, less physical energy, and greater control.
- Pre-stretched film consumption can be less to one half that of traditional stretch film. This creates a significant cost savings No Edge Damage (no wasted rolls).
- Traditional stretch film rolls often are thrown away because the user drops them and damages the edge.
- Easier to Apply. Lower torque making for safer and easier control. The roll is lighter (about 2/3 less than traditional film) and easier to manage. It's about half the thickness and double the strength.

## PRE-STRETCH FILM

Case Pallet

SF (14.5/1450)	14.5" Pre-Stretch 32 Gauge 1450Ft XLXS	32	4	36
