Cat dark (-tail piece s): TINY DOTS PEACOCK

CAT 6:  
Cat light: TINY DOTS COSMIC  
Cat medium: CAT EYES PRISM  
Cat dark: TINY STRIPES MYSTIC

## MAKING THE QUILT

To make the quilt top, follow the "Large Quilt 55.5" x 62" instructions as found in the pattern.

For the most efficient cutting, follow the cutting guide found on pages 4 & 5 to cut all the BACKGROUND, EYES, NOSE, SCRATCHES, CLAWS and FISH.

For all other fabrics, follow the cutting guides for the individual blocks on pages 6, 11, 18 & 20. Be sure to refer back to the Tabby Road FABRIC GUIDE before cutting each block to ensure you are cutting the pieces from the correct fabrics.

***NOTE that cats 1, 2 & 7 have tummies cut from a print fabric from Tabby Road. You may choose to fussy cut these. These pieces are listed in the pattern as being cut from CAT LIGHT fabric.***

***NOTE that cats 4 & 5 have tails cut from the same fabric used for CAT MEDIUM instead of CAT DARK as in the pattern.***

Once the quilt top is complete, you may cut your pieces to form the borders.

You must cut four pieces measuring 4.5" x 4.5" for the cornerstones. These are to be fussy cut from Club Kitty Electroberry fabric.

Cut 4.5" strips from the yardage of Disco Lucy in Prism for the border pieces. You will need to piece these strips to make the required border lengths. You may choose to pattern-match these or not. The Disco Lucy print is busy enough that if they are not pattern-matched, it will not be too noticeable. You will need two completed borders that measure 4.5" x 55.5" for the two short sides of the quilt top and two completed borders that measure 4.5" x 62" for the two long sides of the quilt top.

Stitch the two long border pieces to either side of the quilt top. Press. The extended quilt top should measure 70" x 55.5".

Stitch a cornerstone (cut from the Club Kitty fabric) to either end of the two short border pieces. Ensure the cats on the cornerstones are oriented in the same direction. Once the cornerstones are attached, these should measure 4.5" x 63.5" each.

Complete the quilt top by stitching the extended short border pieces to the top and bottom edges of the extended quilt top. Pay attention to the orientation of the cornerstones so you don't end up with upside-down cats. Press. The completed quilt top should measure 63.5" x 70".

You may know quilt and bind your quilt using your favourite methods!
