

Hotel room... attraction tickets... bathing suits... you've planned for it all—except for suddenly getting sick. In the past, you'd have to put your plans on hold, and frantically search for an urgent care center or ER in an unfamiliar area. By the time you're discharged, and pick up your prescriptions, you would have pretty much burned one of your valuable pre-planned days of fun.

Fortunately, that's no longer the case!

With MDLIVE, you can talk to a board-certified doctor 24/7 via phone or video, wherever you are, in an average of less than 10 minutes. And if your doctor determines you need a prescription, it can be sent electronically to the closest pharmacy to where you are. It's a more convenient and inexpensive way to get the treatment you need when you need it, so you can get back to having fun faster.

Just be sure to activate your MDLIVE account BEFORE you leave on vacation, if you don't already have one. It's like having a doctor that goes everywhere that you do!

Non-emergency conditions we treat:

- Allergies
- Cold / Flu
- Constipation
- Cough
- Diarrhea
- Ear problems
- Fever
- Headache
- Insect bites
- Nausea
- Pink eye
- Rash
- Respiratory problems
- Sore throats
