

OUR HEALTH & SAFETY COMMITMENT

HEALTH AND SAFETY VISION

Based on Insight's core values, we strive to achieve zero incidents in everything we do ensuring the health, safety and wellbeing of our employees and stakeholders.

INSIGHT GLOBAL HEALTH AND SAFETY POLICY

At Insight health and safety is also a requirement for operational excellence as an organisation and as individuals, determined to achieve a zero incident culture, Insight and its staff.

- Keep H&S first in all we do all of the time
- Proactively recognise hazards, assess risks, and control those risks in everything we do, every day
- Act only when we understand the hazards and controls and exercise our authority to stop work
- Demonstrate viable H&S leadership and know that active H&S stewardship is an expectation of employment
- Hold our leaders and staff accountable for H&S.
- Comply with applicable legal and other H&S requirements wherever we work

- Actively care for staff and stakeholders by intervening when we observe at-risk behaviours and unsafe conditions and addressing them promptly
- Recognise our staff for proactive H&S behaviours
- Ensure that staff is competent to do their work safely
- Rigorously qualify, select, and evaluate our subcontractors for H&S performance
- Encourage our stakeholders to align with our H&S culture
- Communicate lessons learned and best practices

Insight staff must understand, believe in, demonstrate, and communicate these commitments and engage in the continual improvement of our H&S system and performance each and every day.
