Abidance Consulting is known for delivering solutions, services & knowledge throughout the Electric power industry. Abidance Consulting is carrying on that tradition with their latest service - NERC Compliance Managed Services programs for NERC Registered Entities based on the NERC CMEP. The Managed Services program meets the NERC 693 Standards and/or CIP requirements of our clients.

Many Registered Entities do not have staff with the necessary time to dedicate to this ever changing environment or the skillsets required to properly implement a Managed Services Program based on the CMEP.

How Secure Are You With Your NERC Compliance Efforts?

Pricing for the NERC Compliance Managed Services Program is a *fixed-fee* program based on your registration type and number of facilities. In general, the Abidance Consulting NERC Compliance Managed Services program costs 40% to 50% less than hiring staff internally.
