ABIDANCE CONSULTING · HIPAA GAP ANALYSIS

## HIPAA Gap Analysis

With fines of up to \$1.5 million per year, it is imperative that you know where your compliance program is at all times. Abidance Consulting can assist you with this.

Regardless of your needs, Privacy or Security, Abidance Consulting has the staff necessary to ensure that you receive an accurate assessment of your current status and what is necessary to achieve total compliance with the HIPAA Rules.

The Gap Analysis will provide you a detailed view of all requirements and their findings, a management “snap-shot” that gives a high-level overview for your upper-management and then there is a detailed report that pinpoints what is required to achieve compliance in chronological order.

The Abidance Consulting compliance team will consider evidence provided and generally determine the audit status of the evidence/documents presented and samples of audit acceptable evidence styles, structure and content will be provided to your team.

HIPAA Compliance is law and now is the time to make sure that your compliance program will hold up to the scrutiny of an OCR HIPAA audit. You can conduct your own in-house audits, but at the end of the day, will you know where you truly stand?

The experts at Abidance have worked within the HIPAA arena since its inception in the 1990’s and are fully knowledgeable of the HIPAA requirements and what is expected.

The fixed-fee pricing for the HIPAA Gap Analysis depends on your size, number of facilities and Gap Analysis needs (Privacy, Security or Both)
