LASHES

Classic lashes \$850

The classic lash extension course covers everything you need to know in order to be successful with lashing. We cover state regulations & guidelines. We will dedicate the first half of class to cover business start up & lash health. You will learn about maintaining the integrity of lashes & the process of good application. Following the lecture, we jump into the hands on portion of the class. You will also do a live model during the course. Your course includes a full kit, manual, mannequin, and certification. You also will have access to student resource, our brands products, and mentoring.

Classic and volume together for \$1,000

Volume lashes \$350

This course is designed for the lash artist that is ready to add volume to their skills. This course can also be paired with the classic course. Both will receive a full kit. This course covers three different volume techniques, as well as the education needed to determine the correct lashes for the clients. This course should not be taken without either pairing it with a classic course, or if you already are trained in classic lashes. Our volume course does not include the health and contradictions our classic course includes, therefore its crucial to pair this with a classic course.

Lash lift & tint. \$450

During our lash lift and tint course, we will teach our students how to properly lift lashes, while also maintaining the integrity of the natural lashes. We cover the do's and don't for lash lifting and the risk that are involved. Lash tinting will also be covered during the course. You will complete a model during this course, and will also receive a manual and full kit.

*Lamination & Lift
together \$700*

BROWS

Microblading \$3000

Microblading is one of our longer courses due to skill it requires. This is a THREE day course. Over the course of these three days we will cover state regulations, health & safety guidelines, client safety contradictions, mapping, color theory and understanding the art of permanent make up. We will practice on latex, as well as complete a model with your instructor. You will receive a full kit, manual, and certification.

Microblading and microshading together \$5000

Microshading \$3000

Microshading is similar to blading, but instead of a handblade you will be using machine . During this three day course, you will learn about the differneces in needles, pigment color theory, mapping and pixilation.

We cover all safety guidelines and protocol. Contradictions and client safety, as always, will be covered in depth. You will also work on a live model. This course includes a full kit , manual and certification.

Brow lamination \$350

During this course, you will learn about brow mapping and shaping. Color theory, and lamination process will be covered in depth. We will complete a model together. Course includes a full kit, manual and certification.

Brow shaping & tinting \$250

During this course, you will learn about brow mapping and shaping. Color theory will be covered in depth. We will complete a model together. Course includes a full kit, manual and certification.

Henna Brows \$250

During this course, you will learn about brow mapping and shaping. Color theory will be covered in depth. You will have a complete understanding of the skin staining process verses tinting .We will complete a model together. Course includes a full kit, manual & certification.

Henna & Tint \$450

SKIN

Fibroblast Skin tightening \$1750

Fibroblast skin tightening is the process of stimulation that causes the production of collagen in the skin. This service is used for skin lifting, skin tightening, and overall skin rejuvenation. During our course you will learn how to safely perform fibroblast. All risk & contradictions will be talked about in depth. You will also complete a model during your training. A full kit, manual and certification is included.

Microneedling \$800

Microneedling is the perfect service for any aged client. During our course we will cover the benefits of microneedling versus other services. We will cover health regulations, protocols and how to properly perform this service. You will complete a model during your training. Full kit, manual and certification included.

WAXING

Brazilian \$200

During the Brazilian course you will learn multiple ways to complete a Brazilian waxing service. We will cover different waxes, sanitation, and proper protocol. This course does not include a kit, but does include product training during the course.

This allows our students to build the kit that works best for them. Certification and Model practice is part of the training.

Vagacial \$75

A vagical is a perfect add on service. During this training we will cover the complete process with product suggestion. This does not include a kit, but does include a model and certification..

Full body training \$400

Teaching for waxing face (not brows), legs, arms, underarms and bikini are included in this training. No kit included. Model practice and certification included.

Brazilian & vagacial together \$250

TEETH

Teeth whitening \$550

Our teeth whitening course includes a starter kit and certification. During this course you will learn about the proper procedure, safety protocols and risk verses benefits of this service. We will complete a model during the course,

Tooth gem \$300

Our tooth gem course includes a starter kit and certification. During this course you will learn about the proper procedure, safety protocols and the regulations. We will complete a model during the course. You will also learn how products and marketing this service.

Included in all courses:

Every course at the Kave includes

- ongoing mentorship
- client consultation and intake forms
- state regulations and guidelines per service
- student resources
- business start up and growth information

Why should you consider training at The Babe Kave?

Every course at the Kave is taught by a STATE LICENSED INSTRUCTOR. What does that mean? This means that the training has been geared towards the best route for student success. This also means you are being taught by a licensed professional and instructor, versus someone who only performs the services but is not trained in educating others.
