**ENGAGE  
DESKING**

Engage is engineered to provide a quality open desking system solution at an exceptional value. Contemporary lines and smart accessories create a cheerful, modern office environment. Engage provides an excellent solution for teaming arrangements, telemarketing and any work environment requiring more collaboration among peers.

Engage gives you the power to get it done with a flexible two-part DaiseyLink power data system which is mounted beneath the worksurface and provides a convenient way to link multiple units together from one power infeed. Numerous power base and grommet options are available making it completely adaptive to today's expanding technical needs. Cable management for data and telecommunication lines runs along the beltway, keeping it neat and out of sight.

Enhance your space with practical and stylish storage options including supporting and mobile filing pedestals, lateral filing and storage bridges and cabinets.
