

Redbird Bioscience
P.O. Box 1202
Stilwell, Okla., 74960

REDBIRD BIOSCIENCE MEDIA FACT SHEET

- Company:** Redbird Bioscience
- Description:** Redbird Bioscience is one of Oklahoma's largest medical cannabis operators producing pharmaceutical-grade cannabis for patients. Its state-of-the-art 10,000-square-foot laboratory houses extraction, processing and packaging equipment to ensure the highest-quality, safest cannabis products for patients in Oklahoma and nearby states.
- Location:** Corporate Office:
P.O. Box 1202
Stilwell, Okla., 74960
- Products:** Redbird Bioscience's specially selected genetics and extensive product line is designed to treat an array of medical conditions, including chronic pain, anxiety, sleep disorders and numerous other clinical indications.
- Business Highlights:** With well-established retail, production and community relationships, Redbird is positioned to be a dominant force in both the regional and national medical cannabis market. Redbird Bioscience operates cultivation and processing at its Stilwell campus in numerous phases:
- "Little Bird"
 - Completed in August 2019
 - 6,000-square-foot indoor cultivation and processing center
 - "Big Bird"
 - Target completion: December 2019
 - 65,000-square-foot indoor cultivation and processing center
 - Greenhouse
 - Target completion: December 2019
 - 20,000-square-foot cultivation center
 - Additional campus expansion
 - 24,000-square-foot indoor production center
 - 42,000-square-foot greenhouse
- Market Opportunity:** Oklahoma is the fastest growing medical cannabis market in the U.S.
- There are more than 220,000 medical cards issued to date. This tops the 10 fastest-growing medical marijuana markets based on average patient growth.
 - Oklahoma allows medical cardholders in surrounding states to make purchases in its dispensaries. Potential adult-use legalization will accelerate the adoption of cannabis of the Oklahoma market.
 - Surrounding states including Arkansas, Missouri and Texas, have extremely limited medical programs.
 - With participation from surrounding states, the total addressable market for cannabis in Oklahoma is more than 7 times the size of Oklahoma's population.

Leadership:

Bill Thurman – Founder & Chairman of the Board

Bill has extensive experience in the long-term care industry, with over 25 years as an entrepreneur and healthcare provider, experienced in Populations Health, Transitional Care, Rehabilitation, Long Term Care, licensure and research and working with Venture Capital and Private Equity interests. Prior to forming Redbird, Bill served as President and Chief Operating Officer of Heart to Heart Hospice, providing passionate care, quality end-of-life care and leading the organization's growth across Texas, Indiana and Michigan. His experience ranges from operations and management as Vice President of Provident LifeCare and LifeCare Management, operating two 120-bed skilled nursing facilities, to serving as Director of Development for Frisco Health Partners. He also served as a development consultant to Victoria Gardens. Since 1995, he has been directly involved in the ground-up development of eight new long-term care facilities in Texas and has won Medicaid contracts as a project consultant for numerous development ventures. Bill's experience includes Medicare / Medicaid contract application, site selection, acquisition and construction. Bill graduated from the University of Arkansas with a bachelor's degree in 1986.

Steve Hockert – Chief Operating Officer

Steve Hockert, MHA, FACHE, has over 20 years of experience in the healthcare sector, both as a practicing clinician and executive. Steve has served in a variety of hospital leadership roles over the course of his career, most recently as Vice President of Operations at Solara Surgical Partners. Hospitals under Steve's leadership have earned many accolades, including multiple Hospital of the Year awards, Most Improved Hospital and Patient's Choice Award. Additionally, Steve worked as a physical therapist in a variety of treatment settings, including rehabilitation, outpatient sports medicine and short- / long-term acute care. He obtained his master's degree in healthcare administration from the University of Oklahoma and is a Fellow of the American College of Healthcare Executives.

Dr. Nimesh Patel – Co-Founder & Vice Chairman of the Board

Dr. Patel is a practicing Internal Medicine physician with Montgomery Physicians Associates in Montgomery, Texas. Prior to his current practice, Dr. Patel served as physician and as member of the Board of Managers for the Sadler Clinic in Conroe, Texas. He practiced in Cincinnati as a hospital physician for two years before returning to his home city of Houston, where he has been in practice with a multi-specialty group for several years. Dr. Patel has participated in a number of physician participation partnerships and healthcare entities, including the Solara LTAC, Reliant Rehab, Forney Assisted Living, Aspire Psychiatric Hospital, Bay Area Medical Center, Cobalt Rehab, Shepard Madison Assisted Living, Woodlands Vascular Center, Veracare Hospice and Amada Care Katy. Dr. Patel graduated cum laude from Houston Baptist University and is a 2002 graduate of Ross University School of Medicine...
