

THE WESTMORELAND GROUP

CAPABILITIES STATEMENT

The Westmoreland Group is a small woman-owned firm that was created to support the mission of government operations through science and technology services, program and project management, and financial and administrative services. We specialize in designing and delivering premium services for government organizations.

CORE COMPETENCIES

STEM Program Administration

Project Management Consulting

Science and Technology Program Support

Financial Management

STEM Outreach and Recruiting

PAST PERFORMANCE

BIO

Office of Naval Research (Department of the Navy)

Provide Senior System Analyst contractor support, which includes hosting technical workshops, planning program briefs, editing technical reports, program analysis and financial planning, budget formulation, program execution, and portfolio development and analysis.

National Science Foundation

TWG provides administrative and analytical support services to the National Center for Science and Engineering Statistics (NCSES) within the Directorate for Social, Behavioral and Economic Sciences at the National Science Foundation. TWG has been supporting NSF since September 2020.

Dr. Sophoria Westmoreland, PMP

A trained engineer with almost 8 years of experience supporting the Department of the Navy. Has directly supported the Office of Naval Research and taught and researched at the United States Naval Academy. Knowledgeable in project and program management, provision of SETA support to program officers, financial management, and STEM outreach. A dedicated analyst eager to share lessons learned from graduate-level research experiences. A proficient, organized communicator who is highly adaptive and open to new learning opportunities.
