

**To my fellow Volunteers, Supporters, Partners and Donors:**

*The idea of S.O.S. or Supplying Our Seniors was originally inspired by my mother. She is a senior citizen that lives by herself in Dallas. My siblings and I were pressed with a way to help her get through this pandemic. From this personal dilemma, I recognized a need to create a support system, as circumstances made her ability to provide for herself very challenging, and dangerous to her health. The realization was that if such a service could be beneficial to my mother, then it could also be very valuable and helpful to other Seniors, who may not have a caretaker, who might be immobilized or have severe financial challenges, that would place them in a very difficult situation.*

*When we first started this organization, there were just a handful of us. As they say, great minds tend to think alike. Within a few days, several friends helped put this organization together. Fast forward to today, we now have several volunteers, a multitude of supporters and countless donors whom we are all blessed to have associated with S.O.S. I cannot say enough about the men and women who have graciously donated their time towards S.O.S. They are all genuinely great people that realized that what we are doing is a really positive thing, fulfilling a great area of need. We, as community citizens rose to the occasion in the face of an unprecedented set of circumstances. In some cases, a fair portion of the volunteers put themselves in harm's way to help others. That magnifies how beautiful this is. We have a bunch of people from various backgrounds, unselfishly coming together to help people they do not know. I am really inspired, proud and encouraged by the wonderful things we are doing in the community and the service we are providing to others.*

*As we move forward into the future, I would like for all of us involved to reflect upon how far we have come, in such a short time. We have helped nearly 200 Seniors, in some capacity to date and I am proud to be a part of something so special. Together, we are doing God's work. Let us never lose sight of that, as we continue forward and use what our hearts, minds and spirits tell us is the right path forward as we continue to grow, expand our outreach and identify additional avenues to help Seniors in need. I am excited to share this journey with you all and look forward to helping more Seniors, creating friendships with our "new" Senior friends in the future. As I always say, "let's keep the wheel rolling". God Bless.*

Sincerely,

*J. Andrews Lilly*

S.O.S. Founder & Executive Chairman of Board of Directors
