

REBECCA DONAGHY

EXPERIENCE

Sept. 2023 - Present

Production Stage Manager • Playhouse on Park

I have had the opportunity to work with a multitude of actors and directors on 10 productions in the theatre's ¾ thrust Blackbox. I provide support throughout the rehearsal, tech and performance process ensuring that everything is done safely and in a timely manner. I ensure that communication between departments is as consistent as possible, delegating as necessary, to ensure everyone has the information they need to do the best work possible. From power outages to disappearing Q-Lab files to replacing actors during tech week, I have worked through my fair share of problems and guided productions to success.

May 2023 – August 2023

Production Stage Manager • Woodstock Playhouse

I was PSM and scenic artist for the 2023 Summer Stock season. It was a very exciting and jam-packed summer putting up 5 productions back-to-back. When I wasn't in rehearsals or navigating backstage with the company I was painting floors, walls, and giant wooden rabbits.

May 2022 – August 2022

Assistant Stage Manager • Summer Theatre of New Canaan

I was ASM for that summer's production of *Once on This Island*. I had the pleasure of working with Tony winning choreographer George Faison and the incredibly talented cast on an outdoor stage in the park. My main responsibility was writing and distributing rehearsal and performance reports daily. It was a summer spent catching flying props and helping actors through multiple quick changes.
