Grooming Release

I want your pet's experience here to be pleasant and as enjoyable as possible. It is important to understand that some pets respond to grooming differently, even with the best efforts. I will make every effort to make it a positive experience.

Sometimes pre-existing conditions arise unforeseen to me, such as skin allergies, shampoo allergies, moles, clipper sensitivity, matting and tangles, fleas, fear, behavioral issues, bone or joint sensitivity, heart condition, seizures, etc. It is helpful that you, as the pet owner, inform me of anything that you are aware of prior to grooming.

Matted coats and excessive undercoats cause a variety of health problems for your pet. Matted fur does not allow for air circulation to the skin, causing hot spots, bacterial and fungal infections. Fleas, ticks and other parasites may be lurking in the coat causing further skin infections. Matted fur also pulls and binds, causing pain to your pet when they move or lay on their mats. The skin underneath can be raw and inflamed.

Severely matted coats will require a short clip. I will be happy to show you how to care for your pet's coat for the future, however, I cannot brush out a coat that is already severely matted due to the stress and the pain it will undoubtedly cause your pet. I may be able to remove excessive undercoat within reason and tolerance of your pet.

There is a chance that your pet's skin will become more irritated during the grooming process. He/She may be nicked or cut because I have to work so closely to the skin to remove the coat. I am very careful, but the possibility of injury is there, and you need to be aware of this and give me permission to proceed.

It has been our experience that when a pet is shaved down (as it is called in the grooming profession), pre-existing conditions may appear. When a pet is very matted, air cannot get through to its skin. If the pet has a sore and bites itself, the skin will become sore and will not be able to heal through its matted coat. Shaving uncovers these skin conditions, as well as other skin problems that may have developed from the lack of air and grooming. Please note that it is difficult to shave a matted pet without slightly irritating the skin. **THE ONLY WAY WE WILL CONSIDER SHAVING YOUR PET WILL BE WITH YOUR CONSENT.** There will be an extra charge for this service because of time and additional blades needed.

If fleas are found on your pet(s), it is TBL.G's policy to give a flea bath automatically without calling or notifying you. The charge for this service is \$10.00. This cost covers the special shampoo, time and extra clean-up to insure no fleas are active. Flea shampoo kills the fleas on the pet. If fleas are in the home or pet area, the flea shampoo will not protect the pet(s) from them once they leave TBL,G.

If your pet has a history of biting, we require notice of such. This will help prevent injuries to the groomer and your pet(s).

Although accidents are very rare, there is a risk when dealing with pets. TBL,G will inform you immediately of any incident that occurs or that we notice. **Your pet(s) safety and comfort is our number one priority.** I further understand and agree to indemnify and hold harmless TBL,G, its owner, employees and affiliates from and against any and all liabilities, expenses, damages, and costs, including reasonable attorney fees, resulting from any service provided or injury including death to your pet(s) whether in our care or after our services have been completed.

TBL,G reserves the right to refuse service to customers whose pets may pose a threat to our employees and other pets left in our care, whether it is aggression problems, health problems or parasite problems other than fleas.

ALL DOGS MUST BE CURRENT ON ALL VACCINATIONS, INCLUDING BORDETELLA (KENNEL COUGH).

I hereby release The Barking Lot, Glenwood from any responsibility of the above mentioned process and any and all medical problems that may be uncovered and/or may occur during grooming or after grooming.

Should my pet need veterinarian care during or after the process, I agree to pay any and all veterinarian fees for my pet's care.
