

Multi-Pet Boarding Form

At TBL'G we offer a discount for the second Pet if the Pet Owner will be boarding two pets together in the same kennel. You will save 20% off the 2nd Pet's boarding rate.

Our requirements for boarding siblings in the same kennel together are:

1. Both Pets must be of the same species. We do not put dogs and cats together in one run/cage.
2. Pets cannot be food aggressive toward one another. Each Pet will have their own bowl; the Pets can be fed together in the same kennel or can be fed separately .
3. All dogs boarding together must be boarded in a kennel so that they have ample room to move and play.
4. If the pets do not get along together and a conflict arises, TBL,G staff will separate the aPets into two different kennel's and the Pet Owner will be responsible for the regular boarding rate for each Pet.

Pets can show signs of stress during boarding stays and show aggression toward one another even though they get along well at home. Pet Owner assumes responsibility for and such aggression that his/her pets may develop towards one another. Pet Owner assumes all financial responsibility of the cost of the treatment of the pet(s) as outlined in the Consent to Treat Form should a medical emergency arise. TBL,G will attempt to contact the Pet Owner and Emergency Contact(s) as soon as possible should an issue arise.

I have read and understand the terms set forth above. I agree to abide by all the terms, conditions and statements of this TBL,G Multi-Pet Boarding Agreement.
