Tips & Tricks

Dining Patio Umbrella

Closing the dining umbrella may pose a slight challenge, as the upper string has the potential to snag on a bolt located near the top. Exercise caution when folding the umbrella to avoid any entanglement with the said bolt.

Electrical Panel

Positioned in the primary bedroom, to the right of the closet, you'll find the electrical panel. Please be aware that our system operates on 30 Amps, and in the event of a breaker trip, you may need to reset it for uninterrupted power.

LED Sign

The remote control for the LED Vagabond sign is conveniently affixed to the wall, situated to the left of the patio door and positioned just above the light switch.

Air Conditioner/Heat

Kindly employ the wall-mounted remote adjacent to the bay window for regulating the AC/Heat system.

Hot Water Tank

Upon your arrival, the pilot light should already be ignited. If, however, you find that hot water is not readily available, locate the tank switch situated beneath the sink on the left-hand side. Simply toggle the switch off and then back on to restore the hot water supply.

Close the umbrellas when not in use.

HOUSE GUIDE

GETTING COMFORTABLE

TV

The Vagabond is outfitted with two smart TVs—one gracing the main room and another adorning the primary space for your entertainment pleasure.

TEMPERATURE

We kindly request that you refrain from setting the temperature below 72 degrees. The AC/heat can be easily adjusted using the remote control, conveniently positioned on the wall to the right of the patio door.

LAUNDRY

Discover the convenient laundry amenities situated at the Funplex, positioned next door to the grocery store.

TRASH

Blue Bin: Recycling

Numerous dumpsters are strategically placed throughout the property for your convenience. For the nearest disposal point, head towards the soccer field.

THE KITCHEN

Indulge in the well-equipped kitchen designed to cater to all your vacation needs! Complimentary coffee awaits your enjoyment. Find the frying pans conveniently stored in the lower cabinet to the right of the stove.

A word of caution: The oven operates on propane, so kindly refrain from placing food directly on the rack to avoid any potential fire hazards. Additionally, the stove does not have a drawer- that is the heating element. Do not store anything in there.

For added entertainment during your stay, discover a collection of board games tucked away in the drawer beneath the bench.

Enjoy your time to the fullest!
