Date

DISCLAIMER

Permit # _____ issued this date _____ is an "Authorization to Construct" a septic system only and is based on information supplied by myself and the Registered Sanitarian or Professional Engineer I employed. **This information to the best of my knowledge is true and accurate.** I understand that a "Notice of Approval" for the septic system will be issued **ONLY** after all criteria set up by TCEQ and Montgomery County Environmental Health Services regarding onsite sewage facilities have been met. I understand that failure to comply with TCEQ or County rules regarding on-site sewage facilities will result in non-issuance of the "Notice of Approval."

EXISTING SYSTEMS: I understand that when upgrading or improving any "existing system," all components of the existing system **MUST** be brought up to current codes or standards. I understand that in order to identify where the tanks and field lines of an existing septic system are located, holes may be dug and/or probing the area on my property may be done. If water lines, gas lines and any underground utilities are not marked, they could be damaged during the course of inspection. However, Montgomery County or its representatives will not be responsible for inadvertent damages that may be done.

NEW INSTALLED SYSTEM: I understand that an inspection by Montgomery County Environmental Health Services must be completed and approval given prior to back-fill of any newly installed or add-on modifications to existing systems. **Inspections may be scheduled by contacting the Montgomery County Environmental Health Office by 3:00 p.m. two (2) business days prior to the need for inspection. Installers must contact the Environmental Office prior to 9:00 a.m. the morning of the inspection to find out the scheduled time.**

I hereby grant permission for the Montgomery County Environmental Health Department personnel to enter upon the property described in the permit for the purpose of inspecting the septic system. I understand that the performance of the septic system will depend on many factors including correct sizing, maintenance, water usage, amount of rainfall received on the property, etc. Montgomery County or its employees will not be responsible for malfunctioning systems.

SEPTIC VERIFICATION DISCLAIMER

Development Permit # _____ is a permit for the structure **ONLY** and not a permit for a septic system.

INSPECTION: I understand that this department is relying on the inspection performed by the Registered Sanitarian to verify that no on-site sewage discharge, either sewer/greywater, exists on the property, at the time of inspection, mentioned at the location of the development permit.

FAILURE: I understand that any failure/discharge, being sewer/greywater, at any time after the development permit is issued, especially if a complaint is filed against the property in question, will result in **"ALL"** components of the septic system to be up-graded to current county and state codes.

DISCHARGE: I understand that if any discharge is evident/visible at the time of inspection, then issuance of the development permit will be denied, and no permits will be issued until all proper paperwork is completed for **"NEW"** septic system permits.

APPROVAL: I understand that an inspection by Montgomery County Health Department personnel was **not** performed and this is an issuance of a development permit only, this is not an approval, only a verification by a Registered Sanitarian, for the **non-permitted existing septic system**. This is only to permit a new/existing structure on the property that will be utilizing an existing septic system.

I understand that the performance of the septic depends on many factors including correct sizing, maintenance, water usage, amount of rainfall received on the property, etc. This evaluation is based upon a soil/site analysis and an on-site inspection of the septic system as found by the Registered Sanitarian. I also understand that there are no guarantees, expressed or implied, that accompany this verification by the Montgomery County Environmental Health Department.

My Commission Expires:

AFFIDAVIT TO THE PUBLIC
(Commercial)

Before me, the undersigned authority, on this day personally appeared _____ who, after being by me duly sworn upon oath, states that he/she is the owner of record of that certain tract or parcel of land lying and being situated in Montgomery County, Texas and being more particularly described as follows:

Subdivision: _____

Section: _____ Block: _____ Lot: _____ If not available: See Attached Metes and Bounds

The undersigned further states that a surface application on-site wastewater treatment system will be installed in accordance with the permitting provisions of the Texas Commission on Environmental Quality. The undersigned has entered into a maintenance agreement, as required by the permitting entity, with an approved maintenance company for service and repairs to the application system.

Further, the undersigned states that he/she will, upon any sale or transfer of the above described property, request a transfer of the permit to operate such surface application system to the buyer or transferee. Any buyer or transferee is hereby notified that a maintenance contract with an approved maintenance company will be required for use of this system. For more information concerning the rules or regulations on surface application on-site wastewater treatment system, please contact the Texas Commission on Environmental Quality, P. O. Box 13087, Austin, Texas 78711-3087 or (512) 908-1000.

I hereby agree and acknowledge that I must:

1. Employ, by means of an initial two-year policy contract, a certified maintenance provider.
2. Employ a certified maintenance provider during the entire operational life of the said application facility.
3. Assure that the certified maintenance provider provides the testing of the sewage effluent on the schedule provided below and sends the required report to the Permit Division:

Annually: BOD5 and TSS

Three Times per Year: pH and Chlorine Residual
Unless otherwise noted by permitting authority

4. Operate this system in strict conformance with sewage effluent discharge standards promulgated by Texas Commission on Environmental Quality (TCEQ).
5. Adhere to maximum gallons per day as stated in design.

Failure to abide by the above conditions could result in the issuance of citations.
The start-up date of the facility will mark the anniversary date of testing and reporting.
