

Houston-based premier
supplier of pumps, pump
parts and services

MCPumpAmericas.com

281-506-7819

Houston, Texas

COMPANY PROFILE:

M&C Pump Americas is a premier global manufacturer of various types of pumps for numerous markets. We have a worldwide customer portfolio with more than 15 years selling into the U.S. in various markets. We manufacture drop in replacement pumps and parts for popular and in-demand pump types. Now with a North American presence and an expansive inventory, we pride ourselves in providing fast delivery and outstanding customer service with our high quality pumps and parts.

THE M&C PUMP DIFFERENCE:

Value: Unlike your typical pump supplier who source then resell their products from other manufacturers, we ARE the manufacturer! We own the foundry and control the whole manufacturing process, which means you receive the best quality and the most competitive pricing from us.

Service: With our huge warehouse in Houston and dedicated operations & service team, we provide unmatched turnaround time and availability so you get what you need fast! And when the unexpected happens, you can count on us to take care of you.
