

FundMe

Building a decentralized fundraising platform and giving people 100% control over their fundraising campaign.

Together, We'll Make a Difference!

THE FIRST CRYPTO USE CASE OF ITS GENERATION OFFERING AN ALTERNATIVE. TO GO FUND ME

Vision

Our goal is quite simple. Becoming an alternative to modern crowdfunding platform that uses Blockchain Technology. Cryptocurrency is the future, it was impossible for us to create a crowdfunding tool without having crypto as main focus. No Crowdfund positions itself as a true game changer by combining tomorrow's technology with today's needs. The one and only tool to use cryptocurrencies, create crowdfunds, establish a trusted service using KYC and donate to projects. Our solution is suitable for everyone, individuals and businesses. Welcome to the future.

What is Crowdfunding?

Crowdfunding harnesses the power of social networks and the internet to give people the platform to raise funds, help others and meet their goals. With crowdfunding, you can help a friend or entire cause. You can do anything that you supporter believe in.

Features

Passive Income Is What We're About

Focus

We aim to build a decentralized fundraising platform to give the people 100% control over their fundraising campaigns utilizing blockchain technology so the community can benefit from the open ledger feature and donors can monitor the movements of the donated funds.

Passive Income

The biggest issue with reflection-based tokens is that they struggle to establish a buying demand due to their use cases after a few weeks from launch. GoFundme generated 15B of donations over the last 10 years and raised 625M in 2020 alone from charity campaigns running in their platform. Fundme aims to compete and replace Gofundme with its technological advantage. Imagine 10% of 625M as rewards.

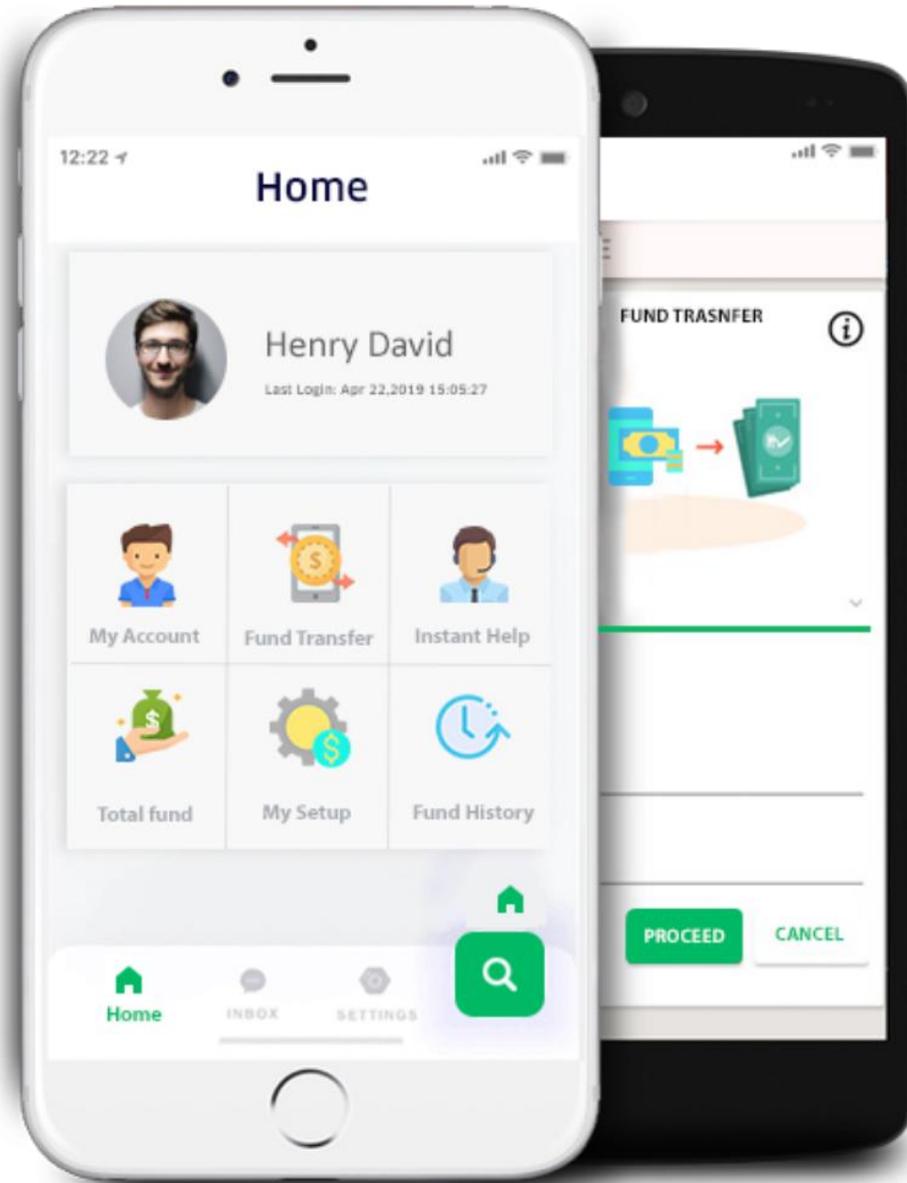

Utility

We aim to build a decentralized fundraising platform to give the people 100% control over their fundraising campaigns utilizing blockchain technology so the community can benefit from the open ledger feature and donors can monitor the movements of the donated funds.
