This will be a valuable day in your professional life, where you will explore strategies for survival in the care giving disciplines. Individuals who work closely with people in grief and loss situations are confronted continually with emotional pain. Dealing effectively with that pain and providing meaningful support can be challenging and exhausting. 'Art of Compassion' has been designed to augment the professional's formal training, providing in-depth exposure to grief and loss situations and to the tools available for facilitating healing. The sessions include didactic presentation and group interaction.
