Why Bläckfisk?

When choosing the best recreational marine transportation for your adventures, aluminum v-hull inflatables are a great choice. Their weight, durability, draft, and ride give them a flexibility to support the widest range of activities that you choose to enjoy. Bläckfisk Marine RIBS are specifically designed to allow you to not only trust your boat in a variety of environments with their high-quality construction, but also to express yourself through its stylish design and comfortable ride.
