

TO ALL OF OUR GUESTS:

Maverick Hospitality is committed to providing a safe environment for our employees and our patrons. Our staff is continually monitoring this rapidly evolving COVID-19 situation. We are open for business for curbside pickup, takeout, and are offering local delivery. We are also available on Postmates and Grub Hub! We have partnered with Swipecy to offer our guests a seamless and convenient way of ordering pickup or curbside pickup. Simply download the app, order, and arrive. We will be notified when you're outside. We are here for you!

We have elected to implement the highest standards and best practices from the CDC and the Health Department to ensure your continued safety. We have put in place practices to reduce skin contact with any of our team members, the use of additional chemical cleaners, and increased frequency of our standard cleaning practices. We have been and will continue to stay in close contact with the Health Department and industry experts on the best response to this situation.

Any team member presenting indicative symptoms will be asked to stay home as part of our zero tolerance policy. In this uncertain environment, we ensure you we are adapting and implementing processes to better serve you.

Please stay tuned on our websites and social media platforms for any updates.

We can't thank you enough for allowing us to serve you and our staff! Our families are very appreciative for your continued support.

God Bless!
