

TO OUR BELOVED PATRONS:

We first would like to wish everyone the happiest holiday season and New Year and the ability to enjoy your loved ones throughout. The Governor has declared a new state of play for North Carolina that will again cause the restaurant industry to pivot and put our best hospitality foot forward. As we continue to maintain exceptional standards and practices it is our daily mission to keep our teams safe and healthy which in turn keep our guests safe and comfortable while enjoying brunch, lunch and dinner at our establishments. Our dining rooms will be open for brunch, lunch and dinner and will be forced to close daily at 10PM in order to abide by the state's government rule. This current order goes through January 8th and we will update this as the rules continually rise and recede following the flow of the pandemic's furious wrath on our population and economy. It is imperative that everyone abides by the three W's we have learned to currently accept in wearing, washing and waiting. The more we remain conscious of our surroundings and before anything else keeping yourself safe, you will keep everyone safe around you.

While we are all watching our W's and also maybe some football and basketball together, we can enjoy our brined and golden fried award-winning chicken, sauced and grilled wings, zucchini fries, shrimp and grits and chicken fried chicken in a beautiful and safe setting curated by our top hospitality experts who are there to serve and keep our guests safe and entertained. All appetizers will be half price Monday thru Friday between 2 and 6PM!! Please be safe and come out and support your local eateries that are working hard to keep the faith and offer some normalcy in a very confusing time.

Godspeed,

Maverick Hospitality Group
