

THE PROBLEM SOLVER

THE BEER

The world is large, but the boundaries are small. Some people are creative, and some just follow. The reason we have rules and laws is to protect our creativity. Once confronted with a problem, we must solve them. It may be a big, bold collectively inspired IIPA or it may be something small, but it's always worth the effort. This beer celebrates a great story of two brewers working together and solving their problems. Awesomeness is created when "the torch is passed" to let one continue with a great beer.

**PROTECT YOUR CREATIVITY.
