

SIGMA
EVOLVE
 The first step to building
 a solid pallet.

Evolution takes time but it all starts with a first step. We took our time developing **Evolve** and we did it RITE. Shouldn't your packaging operation take a new first step and EVOLVE?

More sizes and gauges are available. Your Sigma Sales Pro will be pleased to discuss your requirements.

Almost futuristic, **Evolve** is a brand new formulation, made with proprietary resin blends on state-of-the-art extrusion equipment. This all purpose film is a highly engineered, one-side cling, cast SUPER film. It's the first of its kind in North America.

Evolve has ridiculously perfect roll and edge profiles and gauge consistency that is simply out of this world.

Just because we can make it thin, doesn't make it RITE for every application.
Consult your local Sigma Sales Pro for a Rite-Gauging assessment.
