Sigma Stretch Film Partners with Sustainability Experts at iSustain to provide Sustainability Solutions to Sigma Stretch Film's Customers

FOR IMMEDIATE RELEASE

{Chattanooga, TN} Plastics industry leader Sigma Stretch Film has partnered with the recycling and sustainability experts at iSustain to launch a new recycling initiative to benefit Sigma customers. As a manufacturer and purveyor of stretch film, Sigma Stretch Film recognizes an opportunity to further support its customer base with cutting edge sustainability solutions. With the help of iSustain, Sigma Stretch Film will provide turnkey solutions for their clients. Sigma Stretch Film is recognized as the industry leader in manufacturing and distributing stretch film products with its team of over 450 employees and the capacity to produce more than 700 million pounds per year. Through its partnership, iSustain will help recycle those products responsibly and economically at the end of their life cycles.

iSustain specializes in creative custom recycling solutions for businesses that deal in massive quantities of materials that other companies deem unrecyclable. From stretch film to corrugated cores and dividers to Gaylord boxes and even food waste, iSustain excels at finding creative long-term solutions through reuse, recycling, alternative energy, and/or advanced recycling. iSustain is a Certified Women's owned and operated by the [WBENC](#) with a national presence, helping customers across the U.S. recycling more than 161 million pounds of plastic every year.

Sigma Stretch Film has already shown a commitment to sustainability in the way they approach business, as well as through other partnerships to improve these efforts through various initiatives such as [Operation Clean Sweep](#) and [Sustainable Packaging Coalition](#). Their partnership with iSustain is yet another example of their diligence in bolstering environmentally-conscious activity by expanding their commitment in supporting their customers' recycling plans. Through this unique partnership, Sigma Stretch Film will direct their customer recycling inquiries to iSustain, who will then develop waste stream-optimizing recycling programs that are both efficient and cost-effective, while also having a positive impact on the environment. The primary benefits to Sigma Stretch Film customers are just that, cost savings, more sustainable business practices, and removing hard-to-recycle items clogging up their work spaces.

iSustain specializes in recycling polyethylene films, polypropylene films, crosslinked films, non olefin films, coated films, purges, pellets, rigid plastics, cardboard, Gaylord boxes, supersacs, pallets, corrugated cores, and more.
