

Certification of Finished Floor Elevation

Meeting Engineered Specifications

This form is to be completed by the builder contractor, surveyor or a professional engineer and must be returned after the slab inspection has passed, and prior to any further inspection requests.

Clearance Sheet # R2005-001955*001

Building Permit # 10800 749

Address 120 HOLLY BERRY LN

In compliance with the approved building plan, I, GEORGE J. WARD certify that the finished floor elevation, for the above address is at or above the elevation specified (not to exceed six inches above the specified elevation) on the approved subdivision construction plans, the County Clearance Sheet, and the approved Lot Grading Plan.

- contractor
- surveyor
- engineer

Signature: George J. Ward

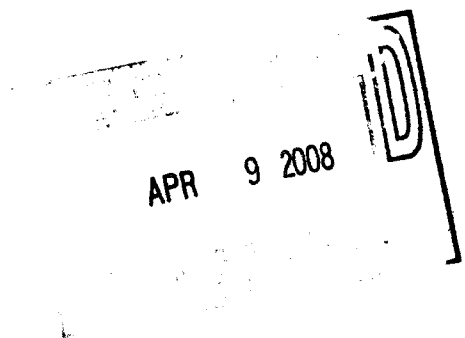

License # 5155

Date 04/09/08

Please check here if the building is STEMWALL construction, and that the finished grade of the lot does not exceed the minimum Finished Floor Elevation as approved on the Neighborhood Site Plan or designed subdivision lot grading plan.
