

## The Foundation of Good Health

As a pet parent, it can be overwhelming to decide what food will give your pets the proper nutrition they need to live healthy, vibrant lives. While dogs can survive on most commercial brands, we've developed customized nutrition plans designed to help your pets thrive, not just survive. We don't stop there, we let you add your pet's name and photo to your bag of food so they know it's just for them.

Your Pet's Name Here!

Actual Size

(Poultry Free) †Guaranteed Analysis: Protein and Fat percentages are minimum and Fiber percentages are maximum.

## Why Buy Grain Free?

- Easier to break down and digest
- Higher protein provides a better source of energy and nutrition
- More food is utilized resulting in less waste
- May reduce food-allergy intolerances
