**911protections.com**

**911 Protection Corp** has a proven track record of completing projects of all sizes, from residential homes to large commercial buildings.

Our dedication to compliance with regulations and industry standards gives customers peace of mind knowing that their remediation concerns are being handled by professionals they can trust.

We always prioritize the well-being and the health of our client's, and ensure thorough and effective removal of any possible hazards.

**Our attention to detail, professionalism, and reliability have been the standard for close to 30 years in business.**

## KEY DIFFERENTIATORS

### TECHNICAL EXPERTISE

Remediation companies must have a deep understanding of various environmental hazards they deal with, such as mold, asbestos, lead, water damage, and other contaminants. 911 Protection Corp not only has the necessary knowledge and expertise needed, but is also current on relevant regulations, industry best practices, and the latest remediation techniques and technologies.

### RISK ASSESSMENT

911 Protection Corp is most capable to assess the risks associated with different types of environmental hazards and develop appropriate mitigation strategies to minimize health risks to occupants and workers.

### PROJECT MANAGEMENT

Remediation projects often involve multiple tasks, subcontractors, and logistical challenges. 911 Protection Corp has the competency and project management skills essential for coordinating resources, scheduling work, and ensuring that projects are completed on time and within budget.

## CAPABILITY STATEMENT

**911 Protection Corp** is a family-owned business. We have **25+ years of experience in environmental remediation**, not just in Florida, but throughout the Northeast, including New York, New Jersey, Connecticut, and Pennsylvania.

**Our mission is to be a one-stop shop for all your remediation needs.**
