

# Ambient Technologies

*An Earth of Experience*

## Capability Statement

### Core Competencies

**Ambient Technologies, Inc.** is a minority owned geo-services firm, who is licensed to perform geological/geophysical and drilling services. We provide technical and field services assistance to consultants, engineers, contractors and to government entities. Our wholly owned operating subsidiaries, GeoView, Inc, and ATI Companies LLC, specialize in:

- Geophysical Surveys & Drilling for Environmental and Geotechnical Site Assessments. Expertise is offered in karst (sinkhole) investigations and environmental site evaluations (USTs, buried metallic & non-metallic debris).
- Non-destructive testing of concrete structures and foundations. Provided testing methods can identify flaws or construction deficiencies within concrete and configuration of reinforcement. Geometry of buried foundations can also be determined.
- Underground utility designation and mapping.
- In-shore and near-shore marine and lake surveying.
- Concrete Coring and Cutting.
- Environmental Drilling – Soil and Water Sampling.
- Monitoring Well Installation, Abandonment and Repairs.
- Ground Water Remediation Systems Installation.

### Differentiators

Our company success is based on 27 years of experience, professional excellence and responsible and dependable performance. Our stability comes from being cognizant of the needs of our clients and our natural and social environment. Ethical integrity and diversity in participation is a major factor of our corporate culture.

### Past Performances

#### Geophysics

##### **FDOT District 7 Emergency Response Services**

Geophysical Surveys to investigate the formation of depressions or collapse

##### **FDOT District 5 Florida Turnpike Site (Sumter County)**

Geophysical Surveys for Karst Investigations

##### **FDOT District 4 North Woodlawn (Broward County)**

Geophysical Surveys for the identification of graves and archeological artifacts

#### Drilling

##### **GOAA – Orlando International Airport**

Environmental Drilling & Sampling

##### **WEKIVA Parkway - FDOT District 5 – Sorrento, FL**

Geotechnical Drilling & Sampling

##### **Kennedy Space Center, Florida**

Environmental Drilling Services and Collection of groundwater samples at various NASA Project Sites

### Certification Data

**Ambient Technologies, Inc.**

DUNS No: 83-107-4224

Certifications: DBE, MBE, SBE, SDB, DMBE

NAICS Codes: 541360, 541620, 561990
