## COMPANY PROFILE

RZ Service Group, a distinguished international Service-Disabled Veteran-Owned Small Business (SDVOSB) established in 2015 and headquartered in Jacksonville, FL, boasts over 20 years of collective Federal contracting experience. As a leading provider of comprehensive support services, we specialize in addressing logistics challenges, ensuring efficient operations management, and delivering effective training solutions. Our customer-centric approach and veteran-led team reflect our commitment to excellence and reliability, making RZ Service Group the go-to choice for Federal, State, and International clients seeking tailored support services.

## CORE COMPETENCIES

Our logistics services extend far and wide, encompassing diverse capabilities to cater to our clients' unique requirements. Notable service offerings include:

**Construction Materials:** From aggregates to concrete pipes, corrugated metal pipes, Drainage geocomposites, concrete, steel, storm-water pipes and culverts, erosion control materials, retention and detention systems and beyond.

**Transportation Infrastructure:** We specialize in supplying materials for transportation projects, supporting the development and maintenance of critical infrastructure across Florida.

**Environmental Sustainability:** RZ Service Group is committed to environmentally friendly practices. We offer eco-conscious material options to support sustainable construction initiatives.

## DIFFERENTIATORS

At RZ Service Group, our commitment is to be the forefront provider of precise solutions to complex logistics issues. We achieve this by employing a versatile team of knowledgeable professionals. Leveraging strong national and international vendor relationships, we consistently surpass customer expectations while maintaining cost-efficiency.

## PAST PERFORMANCE

RZ Service Group boasts a proven track record in logistics and supply chain management. Our expertise extends to various areas including facilities supply waterworks material supply, MRO, PVF, and mission sustainment, showcasing our ability to deliver solutions across different sectors.
