

OUR STORY

Trusted and Dependable Solutions, LLC (TDS) is an environmental service supplier that specializes in providing integrated solutions to help improve efficiency and productivity. Our mission is to enable our clients to focus on what truly matters. We were founded during the pandemic when society was in desperate need of essential supplies and we stepped in to fill that void. We have a robust portfolio of products and a national distribution network, which allows us to provide pertinent supplies to healthcare facilities, government agencies, institutions of higher education and local businesses without delay.

OUR PROMISE

To provide excellent client responsiveness, reliability, along with great products and services. We pride ourselves on the ability to continually provide high quality supplies in a timely fashion.

- Direct relationship with the team
- Access to full suite of products upon request
- Provide cost saving measures to assist in reaching your budgeting goals
