

Job Title: Senior Toxicology Consultant

Location: Flexible / Remote (with occasional travel for client meetings and site visits)

Job Type: Full-Time, Permanent

Compensation: Competitive, based on experience + performance-based incentives

Benefits: Health and Dental Insurance, 401(k), professional development opportunities

About Us:

We are a leading consulting firm specializing in environmental and occupational health. We offer expert advice to a range of industries, including pharmaceuticals, chemicals, and biotechnology. We are committed to delivering science-driven, practical solutions to our clients while fostering a collaborative and dynamic work environment.

Position Overview:

We seek a Senior Toxicology Consultant, who follows the professional guidelines outlined by the Society of Toxicology (SOT) in their Code of Ethics, has a proven track record, and an existing book of business to join our growing team. The ideal candidate will have extensive experience in toxicology, a deep understanding of regulatory frameworks, and the ability to advise and guide clients in risk assessment, litigation support, product safety, and compliance. As a Senior Consultant, you will leverage your expertise to support high-level projects, lead client relationships, and contribute to the firm's success.

Key Responsibilities:

- Provide expert toxicology evaluations, guidance, and advice to a diverse client base (visit our website for examples).
- Lead and manage complex toxicology assessments, including hazard identification, dose-response evaluation, risk assessment, and regulatory compliance.
- Demonstrated success in business development. For example, utilize your book of business to expand and maintain long-term client relationships.
- Collaborate with cross-functional teams to provide integrated, science-based solutions.
- Mentor and support junior consultants and other staff, fostering a collaborative and educational environment.
- Demonstrate capabilities in application of current scientific and regulatory toxicology.

Required Qualifications:

- 7+ years of relevant experience in toxicology consulting in risk assessment, or a related field.
 - PhD, DABT (Diplomate of the American Board of Toxicology), degree in toxicology, pharmacology, or related field.
 - MS, DABT, and minimum of 8 years of experience
 - BS, DABT and minimum of 10 years of experience
 - Established business book with a history of successfully managing client relationships and bringing in new business.
 - In-depth knowledge of regulatory requirements and guidelines in your practice area (e.g., FDA, EPA, REACH, IARC, etc.).
 - Strong communication and presentation skills, with the ability to explain complex scientific concepts to a non-technical audience.
 - Proven ability to manage and lead teams, mentor junior staff, and foster a collaborative work environment.
 - Excellent problem-solving skills and a solution-oriented mindset.
-

Why Join Us?

- Competitive salary with potential for performance-based bonuses.
 - Flexible working arrangements, including remote work options.
 - Opportunity to make a significant impact in a rapidly growing field.
 - Collaborative and supportive team culture with opportunities for professional development.
 - Access to cutting-edge resources and a network of experts in the toxicology field.
-

How to Apply:

Please submit your resume and a cover letter outlining your experience, expertise, and why you're a good fit for the role.

We look forward to hearing from you!
