Social psychology 11th edition pdf

Social psychology aronson 11th edition free pdf. What is psychology class 11 pdf. Aronson social psychology 11th edition pdf. Social psychology david myers 11th edition pdf.

By Doug Mccann, Wayne Weiten and Deborah Hunt Matheson Contents: CHAPTER 1 THE EVOLUTION OF PSYCHOLOGY From Speculation to Science: How Psychology Developed 3 A New Science Is Born 4 The Battle of the "Schools" Begins: Structuralism versus Functionalism 4 Watson Alters Psychology's Course as Behaviourism Makes Its Debut 5 Freud Brings the Unconscious into the Picture 7 Skinner Questions Free Will as Behaviourism Flourishes 7 The Humanists Revolt 8 Psychology in Canada 9 Psychology Comes of Age as a Profession 11 Cognition and Neuroscience in Psychology 12 A Focus on Culture and Diversity 14 Psychology Adapts: The Emergence of Evolutionary Psychology 15 Psychology Moves in a Positive Direction: The Positive Psychology Movement 15 AN ILLUSTRATED OVERVIEW OF PSYCHOLOGY'S HISTORY 16 Psychology Today: Vigorous and Diversified 18 Research Areas in Psychology 19 Putting It in Perspective: Seven Key Themes 21 Themes Related to Psychology as a Field of Study 21 Themes Related to Psychology's Subject Matter 22 PERSONAL APPLICATION Improving Academic Performance 26 CRITICAL THINKING APPLICATION Developing Critical Thinking Skills: An Introduction 29 Concept Chart 31 Key Terms 33 Multiple-Choice Questions 33 CHAPTER 2 THE RESEARCH ENTERPRISE IN PSYCHOLOGY The Scientific Approach to Behaviour 36 Goals of the Scientific Enterprise 36 Steps in a Scientific Investigation 36 Advantages of the Scientific Approach 39 Looking for Causes: Experimental Research 41 Independent and Dependent Variables 41 Extraneous Variables 42 Variations in Designing Experiments 43 Advantages and Disadvantages of Experimental Research 44 Looking for Links: Descriptive/Correlational Research 45 Naturalistic Observation 45 Case Studies 46 Surveys 47 Advantages and Disadvantages of Descriptive/Correlational Research 48 Looking for Conclusions: Statistics and Research 49 Descriptive Statistics 49 AN ILLUSTRATED OVERVIEW OF KEY RESEARCH METHODS IN PSYCHOLOGY 50 Looking for Flaws: Evaluating Research 57 Sampling Bias 57 Placebo Effects 58 Distortions in Self-Report Data 59 The Importance of Replication 59 Experimenter Bias 60 Looking at Ethics: Do the Ends Justify the Means? 61 The Question of Animal Research 62 Ethical Guidelines for Research in Psychology in Canada 63 Putting It in Perspective: Themes 1 and 7 64 PERSONAL APPLICATION Finding and Reading Journal Articles 65 CRITICAL THINKING APPLICATION The Perils of Anecdotal Evidence: "I Have a Friend Who..." 67 Concept Chart 69 Key Terms 71 Multiple-Choice Questions 71 CONTENTS CHAPTER 3 THE BIOLOGICAL BASES OF BEHAVIOUR The Anatomy of the Nervous System 74 Glial Cells 74 Neurons 75 The Function of Neurons: Information Transmission 76 Neurotransmitters and Behaviour 82 Organization of the Nervous System 85 The Peripheral Nervous System 85 The Central Nervous System 87 Looking Inside the Brain: Research Methods 88 Transcranial Magnetic Stimulation 90 The Brain and Behaviour 91 The Hindbrain 92 The Midbrain 93 The Forebrain 93 The Limbic System: The Centre of Emotion 94 The Plasticity of the Brain 96 Right Brain/Left Brain: Cerebral Lateralization 98 Bisecting the Brain: Split-Brain Research 98 Hemispheric Specialization in the Intact Brain 100 The Endocrine System: Another Way to Communicate 101 Heredity and Behaviour: Is It All in the Genes? 102 Basic Principles of Genetics 102 Investigating Hereditary Influence: Research Methods 103 The Interplay of Heredity and Environment 106 Epigenetics: The Interplay of Heredity and Environment 106 The Evolutionary Bases of Behaviour 107 Darwin's Insights 107 Later Refinements to Evolutionary Theory 108 Behaviours as Adaptive Traits 109 Putting It in Perspective: Themes 1, 4, and 6 109 PERSONAL APPLICATION Evaluating the Concept of "Two Minds in One" 111 CRITICAL THINKING APPLICATION Building Better Brains: The Perils of Extrapolation 113 Concept Chart 116 Key Terms 118 Multiple-Choice Questions 118 CHAPTER 4 SENSATION AND PERCEPTION Psychophysics: Basic Concepts and Issues 120 Thresholds: Looking for Limits 121 Signal-Detection Theory 121 Perception without Awareness 122 Sensory Adaptation 122 Our Sense of Sight: The Visual System 123 The Stimulus: Light 123 The Eye: A Living Optical Instrument 124 The Retina: The Brain's Envoy in the Eye 125 Vision and the Brain 126 Vision for Perception and Vision for Action 128 Viewing the World in Colour 129 The Visual System: Perceptual Processes 134 Perceiving Forms, Patterns, and Objects 134 Looking at the Whole Picture: Gestalt Principles 136 Perceiving Depth or Distance 138 Perceptual Constancies in Vision 139 The Power of Misleading Cues: Visual Illusions 140 Our Sense of Hearing: The Auditory System 143 The Stimulus: Sound 143 Human Hearing Capacities 143 Sensory Processing in the Ear 144 Auditory Perception: Theories of Hearing 145 Auditory Localization: Perceiving Sources of Sound 146 Our Chemical Senses: Taste and Smell 148 Taste: The Gustatory System 150 Our Sense of Touch: Sensory Systems in the Skin 152 Feeling Pain 152 Our Other Senses 155 The Kinesthetic System 155 The Vestibular System 155 AN ILLUSTRATED OVERVIEW OF FIVE MAJOR SENSES 156 Putting It in Perspective: Themes 2, 5, and 7 158 PERSONAL APPLICATION Appreciating Art and Illusion 159 CRITICAL THINKING APPLICATION Recognizing Contrast Effects: It's All Relative 161 Concept Chart 163 Key Terms 165 Multiple-Choice Questions 165 CHAPTER 5 VARIATIONS IN CONSCIOUSNESS The Nature of Consciousness 168 Variations in Awareness and Control 168 Consciousness and Brain Activity 169 Biological Rhythms and Sleep 170 The Role of Circadian Rhythms 170 Ignoring Circadian Rhythms 171 Realigning Circadian Rhythms 172 The Sleep and Waking Cycle 173 Cycling through the Stages of Sleep 173 Repeating the Cycle 175 Age Trends in Sleep 176 Culture and Sleep 177 The Neural and Evolutionary Bases of Sleep 177 Doing Without: Sleep Deprivation 178 Problems in the Night: Sleep Disorders 180 The World of Dreams 184 The Contents of Dreams 184 Links between Dreams and Waking Life 185 Culture and Dreams 186 Theories of Dreaming 186 Hypnosis: Altered Consciousness or Role Playing?

187 Hypnotic Induction and Susceptibility 188 Theories of Hypnosis 189 Meditation: Pure Consciousness or Relaxation? 190 Long-Term Benefits 190 Altering Consciousness with Drugs 191 Principal Abused Drugs and Their Effects 192 Factors Influencing Drug Effects 196 Mechanisms of Drug Action 197 Drug Dependence 198 Drugs and Health 199 Putting It in Perspective: Themes 2, 3, 4, 5, and 7 200 PERSONAL APPLICATION Addressing Practical Questions about Sleep and Dreams 202 CRITICAL THINKING APPLICATION Is Alcoholism a Disease? The Power of Definitions 204 Concept Chart 206 Key Terms 208 Multiple-Choice Questions 208 CHAPTER 6 LEARNING Classical Conditioning 211 Pavlov's Demonstration: "Psychic Reflexes" 211 Terminology and Procedures 212 Classical Conditioning in Everyday Life 213 Basic Processes in Classical Conditioning 215 Stimulus Generalization and the Mysterious Case of Little Albert 216 Cognition and Classical Conditioning 219 Evolutionary and Biological Effects on Conditioning 219 Operant Conditioning 221 Thorndike's Law of Effect 221 Skinner's Demonstration: It's All a Matter of Consequences 222 Terminology and Procedures 223 Basic Processes in Operant Conditioning 224 Reinforcement and Superstitious Behaviour 226 Schedules of Reinforcement 228 Positive Reinforcement versus Negative Reinforcement 230 Punishment: Consequences That Weaken Responses 232 Cognitive Processes in Conditioning: Latent Learning and Biological Effects on Conditioning 236 Observational Learning 237 Basic Processes 237 Observational Learning and the Media Violence Controversy 238 Observational Learning and the Brain: Mirror Neurons 241 AN ILLUSTRATED OVERVIEW OF THREE TYPES OF LEARNING 242 Putting It in Perspective: Themes 3 and 6 244 PERSONAL APPLICATION Achieving Self-Control through Behaviour Modification 245 CRITICAL THINKING APPLICATION Manipulating Emotions: Pavlov and Persuasion 248 Concept Chart 250 Key Terms 252 Multiple-Choice Questions 252 CHAPTER 7 HUMAN MEMORY Encoding: Getting Information into Memory 255 The Role of Attention 255 Levels of Processing 256 Enriching Encoding 257 Storage: Maintaining Information in Memory 259 Sensory Memory 259 Short-Term Memory 260 Long-Term Memory 262 How Is Knowledge Represented and Organized in Memory? 264 Retrieval: Getting Information Out of Memory 265 Using Cues to Aid Retrieval 266 Reinstating the Context of an Event 266 Reconstructing Memories 266 Source Monitoring 268 Forgetting: When Memory Lapses 268 How Quickly We Forget: Ebbinghaus's Forgetting Curve 269 Measures of Forgetting 269 Why We Forget 270 The Repressed Memories Controversy 273 Seven Sins of Memory: How Memory Goes Wrong 275 In Search of the Memory Trace: The Physiology of Memory 276 The Neural Circuitry of Memory 276 The Memory of Memory 278 Systems and Types of Memory 280 Implicit versus Explicit Memory 280 Declarative versus Nondeclarative Memory 281 Semantic versus Episodic Memory 282 Prospective versus Retrospective Memory 283 Putting It in Perspective: Themes 2, 4, and 7 284 PERSONAL APPLICATION Improving Everyday Memory 286 CRITICAL THINKING APPLICATION Understanding the Fallibility of Eyewitness Accounts 289 Concept Chart 291 Key Terms 293 Multiple-Choice Questions 293 CHAPTER 8 LANGUAGE AND THOUGHT Language: Turning Thoughts into Words 296 What Is Language?

296 The Structure of Language 296 Milestones in Language Development 297 Learning More than One Language: Bilingualism 300 Can Animals Develop Language? 302 Language in an Evolutionary Context 304 Theories of Language Acquisition 304 Culture, Language, and Thought 305 Problem Solving: In Search of Solutions 306 Types of Problems 307 Barriers to Effective Problem Solving 308 Approaches to Problem Solving 310 Culture, Cognitive Style, and Problem Solving 311 Decision Making: Choices and Chances 313 Making Choices about Preferences 314 Taking Chances: Factors Weighed in Risky Decisions 315 Heuristics in Judging Probabilities 315 The Tendency to Ignore Base Rates 316 The Conjunction Fallacy 316 The Sunk Costs Fallacy 317 Behavioural Economics 318 Evolutionary Analyses of Fast and Frugal Heuristics 319 Thinking Fast and Thinking Slow: Two Systems of Thought 319 Putting It in Perspective: Themes 1, 5, 6, and 7 320 PERSONAL APPLICATION Understanding Pitfalls in Reasoning about Decisions 321 CRITICAL THINKING APPLICATION Shaping Thought with Language: "Only a Naïve Moron Would Believe That" 324 Concept Chart 326 Key Terms 327 Multiple-Choice Questions 327 CHAPTER 9 INTELLIGENCE AND PSYCHOLOGICAL TESTING Key Concepts in Psychological Testing 330 Standardization and Norms 330 Reliability 331 Validity 331 The Evolution of Intelligence Testing and Our Understanding of the Construct of Intelligence 332 Origins of Modern Intelligence Testing 332 The Debate about the Structure of Intelligence 333 Broadening the Concept of Intelligence 335 Basic Issues in Intelligence Testing 340 What Do Modern IQ Scores Mean? 340 Do Intelligence Tests Have Adequate Reliability? 341 Do Intelligence Tests Have Adequate Validity? 341 Do Intelligence Tests Predict Vocational Success? 342 Are IQ Tests Widely Used in Other Cultures? 342 Are IQ Tests Widely Used in Other Cultures? 342 Extremes of Intelligence 343 Intellectual Disability 343 Giftedness 346 Heredity and Environment as Determinants of Intelligence 347 Evidence for Hereditary Influence 348 Evidence for Environmental Influence 349 The Interaction of Heredity and Environment 351 Cultural Differences in IQ Scores 351 Putting It in Perspective: Themes 3, 5, and 6 354 PERSONAL APPLICATION Understanding Creativity 356 CRITICAL THINKING APPLICATION The Intelligence Debate, Appeals to Ignorance, and Reification 359 Concept Chart 361 Key Terms 362 Multiple-Choice Questions 362 CHAPTER 10 MOTIVATION AND EMOTION Motivational Theories and Concepts 364 Drive Theories 365 Incentive Theories 365 Evolutionary Theories 365 The Motivation of Hunger and Eating 366 Biological Factors in the Regulation of Hunger 366 Environmental Factors in the Regulation of Hunger 367 Eating and Weight: The Roots of Obesity 369 Sexual Motivation and Behaviour 372 The Human Sexual Response 372 Evolutionary Analyses of Human Sexual Behaviour 374 The Mystery of Sexual Orientation 376 The Need to Belong: Affiliation Motivation 379 Ostracism and the Fear of Rejection 379 Achievement: In Search of Excellence 380 Individual Differences in the Need for Achievement 380 Situational Determinants of Achievement Behaviour 381 The Elements of Emotional Experience 383 The Cognitive Component: Subjective Feelings 383 The Physiological Component: Diffuse and Multifaceted 384 The Behavioural Component: Nonverbal Expressiveness 387 Culture and the Elements of Emotion 388 Theories of Emotion 391 James-Lange Theory 391 Cannon-Bard Theory 391 Schachter's Two-Factor Theory 392 Evolutionary Theories of Emotion 393 Putting It in Perspective: Themes 2, 3, 4, 5, and 6 395 PERSONAL APPLICATION Exploring the Ingredients of Happiness 396 CRITICAL THINKING APPLICATION Analyzing Arguments: Making Sense Out of Controversy 400 Concept Chart 402 Key Terms 404 Multiple-Choice Questions 404 CHAPTER 11 HUMAN DEVELOPMENT ACROSS THE LIFE SPAN Progress before Birth: Prenatal Development 407 The Course of Prenatal Development 407 Environmental Factors and Prenatal Development 409 The Wondrous Years of Childhood 411 Exploring the World: Motor Development 411 Easy and Difficult Babies: Differences in Temperament 413 Early Emotional Development: Attachment 414 Personality Development in Childhood 417 The Growth of Thought: Cognitive Development 419 The Development of Moral Reasoning 426 The Transition of Adolescence 428 Physiological Changes 428 Neural Development: The Teen Brain 430 Time of Turmoil? 430 The Search for Identity 432 Emerging Adulthood as a New Developmental Stage 432 The Expanse of Adulthood 433 Personality Development 434 Transitions in Family Life 434 Aging and Neural Changes 438 Aging and Cognitive Changes 439 Death and Dying 440 Putting It in Perspective: Themes 2, 3, 4, 5, and 6 441 AN ILLUSTRATED OVERVIEW OF HUMAN DEVELOPMENT 442 PERSONAL APPLICATION Understanding Gender Differences 446 CRITICAL THINKING APPLICATION Are Fathers Essential to Children's Well-Being? 447 Concept Chart 450 Concept Chart 452 Key Terms 454 Multiple-Choice Questions 454 CHAPTER 12 PERSONALITY: THEORY, RESEARCH, AND ASSESSMENT The Nature of Personality 457 Defining Personality: Consistency and Distinctiveness 457 Personality Traits: Dispositions and Dimensions 457 The Five-Factor Model of Personality Traits 458 Psychodynamic Perspectives 459 Freud's Psychoanalytic Theory 459 Jung's Analytical Psychology 465 Adler's Individual Psychology 466 Evaluating Psychodynamic Perspectives 467 Behavioural Perspectives 468 Skinner's Ideas Applied to Personality 468 Bandura's Social Cognitive Theory 469 Mischel and the Person-Situation Controversy 471 Evaluating Behavioural Perspectives 471 Humanistic Perspectives 472 Rogers's Person-Centred Theory 472 Maslow's Theory of Self-Actualization 474 Evaluating Humanistic Perspectives 476 Biological Perspectives 476 Eysenck's Theory 476 Behavioural Genetics and Personality 477 The Neuroscience of Personality 478 The Evolutionary Approach to Personality 478 Evaluating Biological Perspectives 479 FOUR VIEWS OF PERSONALITY: AN ILLUSTRATED OVERVIEW OF MAJOR THEORIES OF PERSONALITY 480 Contemporary Empirical Approaches to Personality 482 Narcissism 482 The Dark Triad 483 Culture and Personality 483 Putting It in Perspective: Themes 2, 3, and 5 486 PERSONAL APPLICATION Understanding Personality Assessment 487 CRITICAL THINKING APPLICATION Hindsight in Everyday Analyses of Personality 490 Concept Chart 492 Key Terms 494 Multiple-Choice Questions 494 CHAPTER 13 SOCIAL BEHAVIOUR Person Perception: Forming Impressions of Others 497 Effects of Physical Appearance 498 Cognitive Schemas 499 Stereotyping 500 Subjectivity and Bias in Person Perception 501 An Evolutionary Perspective on Bias in Person Perception 501 Attribution Processes: Explaining Behaviour 502 Internal versus External Attributions 502 Attributions for Success and Failure 502 Bias in Attribution 503 Culture and Attributions 505 Interpersonal Attraction: Liking and Loving 505 Key Factors in Attraction 506 Perspectives on the Mystery of Love 507 Culture and Close Relationships 509 The Internet and Close Relationships 509 An Evolutionary Perspective on Attraction 511 Attitudes: Making Social Judgments 512 Components and Dimensions of Attitudes 512 Implicit Attitudes: Looking Beneath the Surface 513 Trying to Change Attitudes: Factors in Persuasion 514 Theories of Attitude Formation and Change 517 Conformity and Obedience: Yielding to Others 520 Conformity 520 Obedience 522 Cultural Variations in Conformity and Obedience 523 The Power of the Situation: The Stanford Prison Simulation 524 Behaviour in Groups: Joining with Others 525 Behaviour Alone and in Groups: The Case of the Bystander Effect 525 Group Productivity and Social Loafing 526 Decision Making in Groups 527 Social Neuroscience 529 A Neuroscience Perspective on Social Psychology 529 Topics in Social Neuroscience 530 Putting It in Perspective: Themes 1, 5, and 7 531 PERSONAL APPLICATION Understanding Prejudice 532 CRITICAL THINKING APPLICATION Whom Can You Trust? Analyzing Credibility and Social Influence Tactics 536 Concept Chart 538 Key Terms 540 Multiple-Choice Questions 540 CHAPTER 14 STRESS, COPING, AND HEALTH The Nature of Stress 544 Stress as an Everyday Event 544 Appraisal: Stress Lies in the Eye of the Beholder 544 Major Types of Stress 545 Frustration 545 Internal Conflict 545 Conflict 546 Pressure 547 Responding to Stress 548 Emotional Responses 548 Physiological Responses 550 Behavioural Responses 553 The Effects of Stress on Psychological Functioning 555 Burnout 555 Post-Traumatic Stress Disorder 556 The Effects of Stress on Physical Health 557 Personality, Hostility, and Heart Disease 557 Emotional Reactions, Depression, and Heart Disease 558 Stress, Other Diseases, and Immune Functioning 558 Sizing Up the Link between Stress and Illness 559 Factors Moderating the Impact of Stress 560 Social Support 560 Optimism, Conscientiousness, and Hardiness 562 Positive Effects of Stress 563 Health-Compromising Behaviour 563 Smoking 564 Lack of Exercise 565 Alcohol and Drug Use 566 Risky Sexual Behaviour 567 Putting It in Perspective: Themes 4 and 7 567 PERSONAL APPLICATION Improving Coping and Stress Management 569 CRITICAL THINKING APPLICATION Thinking Rationally about Health Statistics and Decisions 573 Concept Chart 575 Key Terms 577 Multiple-Choice Questions 577 CHAPTER 15 PSYCHOLOGICAL DISORDERS Abnormal Behaviour: Myths, Realities, and Controversies 581 The Medical Model Applied to Abnormal Behaviour 581 Criteria of Abnormal Behaviour 582 Stereotypes of Psychological Disorders 583 Psychodiagnosis: The Classification of Disorders 584 The Prevalence of Psychological Disorders 586 Anxiety, Obsessive-Compulsive, and Post-Traumatic Stress Disorders 587 Anxiety Disorders 587 Obsessive-Compulsive Disorder 589 Post-Traumatic Stress Disorder (PTSD) 591 Etiology of Anxiety and Anxiety-Related Disorders 593 Dissociative Disorders 595 Description 595 Etiology of Dissociative Disorders 596 Depressive and Bipolar Disorders 596 Major Depressive Disorder 597 Bipolar Disorder 599 Diversity in Mood Disorders 600 Mood Disorders and Suicide 601 Etiology of Depressive and Bipolar Disorders 601 Schizophrenia 605 General Symptoms 606 Etiology of Schizophrenia 608 AN ILLUSTRATED OVERVIEW OF THREE CATEGORIES OF PSYCHOLOGICAL DISORDERS 612 Personality Disorders 614 Antisocial, Borderline, and Narcissistic Personality Disorders 614 Etiology of Personality Disorders 616 Neurodevelopmental Disorders 616 Autism Spectrum Disorder 617 Psychological Disorders and the Law 618 Insanity 619 Culture, Pathology, and Trauma 620 Are There Equivalent Disorders Found Around the World? 620 Are Symptom Patterns Culturally Invariant? 621 Intergenerational Trauma 621 Putting It in Perspective: Themes 3, 4, 5, and 6 622 PERSONAL APPLICATION Understanding Eating Disorders 624 CRITICAL THINKING APPLICATION Working with Probabilities in Thinking about Mental Illness 627 Concept Chart 630 Key Terms 632 Multiple-Choice Questions 632 CHAPTER 16 TREATMENT OF PSYCHOLOGICAL DISORDERS The Elements of the Treatment Process 635 Treatments: How Many Types Are There? 635 Clients: Who Seeks Therapy? 636 Therapists: Who Provides Professional Treatment? 637 Insight Therapies 639 Psychoanalysis 639 Therapies Inspired by Positive Psychology 643 Group Therapy 644 Couples and Family Therapy 644 How Effective Are Insight Therapies? 645 How Do Insight Therapies Work? 646 Behaviour Therapies 646 Systematic Desensitization 647 Aversion Therapy 648 Social Skills Training 649 Cognitive-Behavioural Therapies 649 How Effective Are Behaviour Therapies? 651 Biomedical Therapies 652 Treatment with Drugs 652 Electroconvulsive Therapy (ECT) 656 New Brain Stimulation Techniques 658 Current Trends and Issues in Treatment 659 Increasing Multicultural Sensitivity in Treatment 659 AN ILLUSTRATED OVERVIEW OF FIVE MAJOR APPROACHES TO TREATMENT 660 Using Technology to Expand the Delivery of Clinical Services 663 Institutional Treatment in Transition 664 Disenchantment with Mental Hospitals 664 Deinstitutionalization 665 Mental Illness, the Revolving Door, and Homelessness 666 Putting It in Perspective: Themes 2 and 5 667 PERSONAL APPLICATION Looking for a Therapist 668 CRITICAL THINKING APPLICATION From Crisis to Wellness—But Was It the Therapy?

671 Concept Chart 674 Key Terms 676 Multiple-Choice Questions 676 Want more? Advanced embedding details, examples, and help!
