

2025 INDUSTRIAL PRODUCT GUIDE

hydration that works[®]

hydration that works[®]

It's critical for employers to protect workers from heat-related illnesses and injuries when working in high heat environments. For any occupation that involves working in high heat environments, it's important to be aware of environmental conditions and take steps to prepare for dangerous heat hazards, both outdoor and indoor.

Sqwincher[®] hydration solutions are specifically designed to help prevent worker dehydration and recover from heat stress related issues. Our wide range of unique packaging options provide a perfect way to stay hydrated throughout the day, and with a variety of delicious, refreshing flavors, hydrating has never been more enjoyable!

But it's not just about taste - our products are formulated with essential electrolytes (sodium and potassium) required to replenish those lost through perspiration and respiration. This helps prevent dehydration and heat stress, which can lead to accidents, injuries, and illnesses. Sqwincher[®] products are internal PPE designed to protect workers from the inside out. Keep them hydrated, safe and productive with Sqwincher[®] hydration solutions - the ultimate hydration safety "gear"!

ELECTROLYTE FREEZER POPS

3 FL OZ SQWINCHER SQWEEZE®

FLAVOR	SKU	CONTROL #
ASSORTED	159200201	9971655

Assorted Pack Flavors Include: Cherry, Orange, Grape, Lemon-Lime and Mixed Berry

- Hydration made easy-just freeze and serve
- Low sodium and gluten free
- Formula: Regular
- Case: (150) 3oz pops-15 bags of 10
- Cases per pallet: 60

3 FL OZ SQWINCHER SQWEEZE® ZERO

FLAVOR	SKU	CONTROL #
ASSORTED ZERO	159200231	9981620

ZERO Assorted Pack Flavors Include: Watermelon, Orange, Dragon Fruit, Punch & Mixed Berry

- Hydration made easy-just freeze and serve
- Low sodium and gluten free
- Formula: Sugar free
- Case: (150) 3oz pops-15 bags of 10
- Cases per pallet: 60

FREEZER POPS

SINGLE SERVE

- 1 stik yields 20oz
- Just pour into water, mix gently and enjoy
- Convenient, on the go electrolyte replenishment
- Low sodium and gluten free
- Formula: Sugar Free
- Case: (500) .11oz stiks-10 packs of 50
- Cases per pallet: 96

- 1 stik yields 20oz
- Just pour into water, mix gently and enjoy
- Convenient, on the go electrolyte replenishment
- Low sodium and gluten free
- Perfect for vending machines
- Formula: Sugar Free
- Case: (200) 20 tubes of 10 (.11oz) stiks
- Cases per pallet: 192

- 1 stik yields 10oz
- Just pour into water, mix gently and enjoy
- Convenient, on the go electrolyte replenishment
- Low sodium and gluten free
- Formula: Sugar Free
- Case: (500) .06oz stiks-10 packs of 50
- Cases per pallet: 96

- 1 stik yields 16.9oz
- Mixes easily with water
- Low sodium and gluten free
- Formula: Regular
- Case: (100) 1.26oz stiks-**Bulk Packed**
- Cases per pallet: 72

- 1 stik yields 20oz
- Mixes easily with water
- Low sodium and gluten free
- Clear-no color added
- No preservatives
- Less calories than original formulation
- No artificial sweeteners
- Naturally flavored
- Formula: Reduced sugar
- Case: (100) 1oz stiks-**Bulk Packed**
- Cases per pallet: 72

20 FL OZ YIELD QWIK STIK® ZERO

FLAVOR	SKU	CONTROL #

- No stirring required
- Low sodium and gluten free
- Formula: Sugar free
- Case: (200) .6oz packs- 4 boxes of 50
- Cases per pallet: 80

READY-TO-DRINK

POWDER PACKS

Squwincher® PowderPack™ powder mixes easily in water, providing refreshing, hydration for anyone affected by high heat environments.

- Powder electrolyte drink mix
- Mixes easily with water
- Low sodium and gluten free
- Formula: Regular
- Case: (80) 9.53oz bags- 4 boxes of 20
- Cases per pallet: 30

- Powder electrolyte drink mix
- Mixes easily with water
- Low sodium and gluten free
- Formula: Regular
- Case: (32) 23.83oz bags
- Cases per pallet: 36

- Powder electrolyte drink mix
- Mixes easily with water
- Low sodium and gluten free
- Formula: Regular
- Case: (16) 47.66oz bags
- Cases per pallet: 44

- 1 stik yields 2.5 gallons
- Mixes easily with water
- Low sodium and gluten free
- Formula: Sugar Free
- Case: (32) 1.76oz stiks-**Bulk Packed**
- Cases per pallet: 168

1 GALLON POWDER PACK™

SOWINCHER® HYDRATION SOLUTIONS

HEAT AWARENESS

KNOWLEDGE FOR YOUR SAFETY

SAFETY TIPS

- 1. Environments of 80°F or above**
Use extreme caution, especially during strenuous activity.
- 2. Acclimate**
Allow the body to adjust to high-heat, high-humidity environments.
- 3. PPE Clothing**
PPE is necessary but can greatly increase risk of heat stress; therefore, monitor yourself continuously. At 80°F and above, experts recommend spending no more than 15 minutes of any one hour in an impervious suit unless cooling is provided or wearing a heat stress monitor.

Source: <https://www.ncbi.nlm.nih.gov/books/NBK232870/>

4. Thirst and/or Sweat

These are NOT ALWAYS dependable gauges for proper hydration or fluid intake.

5. Know the Symptoms

Be familiar with heat stroke, heat exhaustion and heat cramps to respond quickly. (Review Heat Illnesses below)

6. Prevention

Preventing a heat stress injury is much easier than recovering from the injury. Drink fluids and replace electrolytes on a regular basis throughout the day.

Sources: <https://www.mayoclinic.org/want-to-stay-hydrated-drink-before-youre-thirsty/art-20390077>
<https://blogs.cdc.gov/niosh-science-blog/2020/08/06/ppe-heat-stress/>

HEAT ILLNESSES

Symptoms and responses to unprotected heat exposure

SYMPTOM	RESPONSE
Sunburn: Redness & painful skin; swelling of skin, blisters, fever and headaches are typical in severe cases.	Ointments for mild cases. DO NOT break blisters. If they do break, apply dry, sterile dressing. For severe cases, consult a physician.
Heat Cramps: Painful muscle spasms, usually in the legs and abdomen. Possible heavy sweating.	Apply firm pressure on cramping muscles, then gently massage to relieve muscle spasm. Give sips of water or balanced carbohydrate/electrolyte drinks every 15 minutes.
Heat Exhaustion: Heavy sweating, weakness, pale and clammy skin, nausea, low blood pressure, rapid pulse, fainting and possible vomiting.	Stop exertion, move to a cool spot and drink water or balanced carbohydrate/electrolyte drinks every 15 minutes for an hour. If victim vomits, seek immediate medical attention.
Exertional Heat Illness: Stuporous appearance, tired, nausea with possible vomiting. Unsteady gait, heavy perspiration, dehydrated with high body temperature (up to 104° F), often accompanied by headache, rapid respiration and pulse.	Cease exertion and promptly cool body exterior. Initiate replacement of fluids – water first, then a balanced carbohydrate/electrolyte drink. If victim cannot retain fluids transport to hospital.
Heat Stroke: High body temperature (105° F or higher), hot, red and dry skin, strong rapid pulse, possible unconsciousness.	Heat stroke is a severe medical problem. Move victim to cooler area and reduce body temperature with cold bath or sponging. Use fans and air conditioners. Get victim to hospital – DELAY CAN BE FATAL. - DO NOT GIVE FLUIDS!

TEMPERATURE DANGERS POSED BY HEAT STRESS

80° - 90° F
Acclimate Employees & Monitor for Heat Related Issues

90° - 100° F
Possible sunstroke, heat cramps and heat exhaustion with prolonged exposure and physical activity.

101° - 129° F
Probable sunstroke, heat cramps and heat exhaustion and possible heat stroke with prolonged exposure and physical activity.

130° F +
Imminent heat stroke or sunstroke.

Source: <https://www.weather.gov/ama/heatindex>

How To Use The Heat Index Chart

Across top (Air Temperature) locate today's predicted high temperature.

Down left side (Relative Humidity) locate today's predicted humidity.

Follow across and down to find "Apparent Temperature" or "What It Feels Like".

HEAT INDEX CHART

Source: <https://www.wrh.noaa.gov/psr/general/safety/heat/heatindex.png>

Air Temp. / Relative Humidity ↓	70°	75°	80°	85°	90°	95°	100°	105°	110°
0%	64	69	73	78	83	87	91	95	99
10%	65	70	75	80	85	90	95	100	105
20%	66	72	77	82	87	93	99	105	112
30%	67	73	78	84	90	96	104	113	123
40%	68	74	79	86	93	101	110	122	137
50%	69	75	81	88	96	107	120	135	150
60%	70	76	82	90	100	114	132	149	
70%	70	77	85	93	106	124	144		
80%	71	78	86	97	113	136	157		
90%	71	79	88	102	122	150	170		
100%	72	80	91	108	133	166			

Heat Index Values were devised for shady, light wind conditions.

Exposure to full sun can increase values by up to 15° F. Strong winds, particularly with hot, dry air can be extremely hazardous.

SQWINCHER® HYDRATION SOLUTIONS

HYDRATION LEVEL

EVALUATING HYDRATION BY URINE COLOR

TARGET HYDRATION LEVEL

Maintain level

PROPERLY HYDRATED

If urine resembles or matches these colors

DEHYDRATED

Needs improvement

WARNING

DEHYDRATED

If urine resembles or matches these colors - more fluids should be consumed

SEVERELY DEHYDRATED

Immediate attention

SEVERELY DEHYDRATED

If urine matches these colors - **SERIOUS DEHYDRATION** has occurred. It is suggested that a physician be contacted to determine the severity of dehydration

Source: <https://www.cdc.gov/niosh/mining/UserFiles/works/pdfs/2017-126.pdf>

PERFORMANCE

Body overview and the effects of fluid balance.

THE BODY IS 60 - 70% WATER

WATER - Recommended intake

15.5 cups (men) a day; 11.5 cups (women) a day. Hotter environments and/or strenuous activity, increase intake required.

Source: Water: Mayo Clinic -

<http://www.mayoclinic.com/healthy-lifestyle/nutrition-and-healthy-eating/indepth/water/art-20044256>

ELECTROLYTES - Recommended intake

6-10 oz. every 15-20 minutes during strenuous activity, especially in hot environments.

Source: Role of Carbohydrate-Electrolyte Fluid Replacement in the Industrial Environment. Human Performance Laboratory, University of Alabama, Tuscaloosa, AL

CONSEQUENCES OF FLUID LOSS AND NEGLECT OF FLUID BALANCE

- 2% - Impaired Performance
- 4% - Capacity for muscular work declines
- 6% - Heat Exhaustion
- 8% - Hallucination
- 10% - Circulatory collapse and heat stroke
