Lighted Box Beam Levels

- End caps provide maximum shock absorption
- V-grooved edge for working with round stock
- Comfort grips for easy handling
- Durable block vials accurate to .00050/in.
- Professional box beam frame offers maximum durability
- Super Bright LEDs simultaneously light all 3 vials for low-light areas
- Available in magnetic model (BLL24M, BLL48M), with IMS Technology™ Magnetic System-6 super strong earth magnets

Speed[®] Square with Black Markings & Blue Book

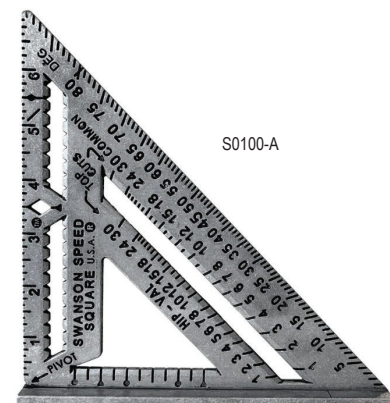

- The Speed[®] Square, is essential for every carpenter, construction professional, roofer and DIYer
- Multi-tool: Try square, miter square, saw guide, line scribe, and protractor
- Includes pocket-sized Swanson[®] Blue Book (Comprehensive Reference Guide)
- Features: 1/4 in. spaced scribing notches and the Diamond[®] cutout for easy rafter seat cuts and scribing the most common and popular stud widths
- Gradations included for marking common, hip, valley, and jack rafters. Useful for determining and marking angles and making square cuts on boards
- Heavy-gauge billet aluminum alloy construction is die-cast for increased accuracy over laser-etched and extruded stamped rafter squares
- High-visibility, black gradations with a non-glare, matte finish for easy reading in any lighting conditions
- Available with plain gradations & blue book (T0101)
- Available with Speed Clip (S0101-C)
- Available with bulk display merchandiser contains 20 Speed[®] Squares with plain markings (DB101) and bulk display merchandiser with 12 Speed[®] Squares (tag carded) with Plain Markings & Blue Books (DT101)

Speed[®] Square Pro

- 2X longer scribe bar with 1/8 in. increments and the diamond cut out bridge that adds support and the famous trademark Swanson Diamond[™] Cut Out at the 3 in. mark
- 1-1/2 in. EDGE - the width of 2X material - mark both sides of studs
- 22-1/2° ANGLE - coming off of the pivot for quick layouts
- 3 1/2 in. Diamond[™] cutout for working with 2 x 6 material
- Beveled edges get the square closer to the working material resulting in more accurate Top Cut measurements
- Easier to see numbers and markings
- 2 Convenient marking edges for 3/4 in. and 1/2 in.
- High-visibility, black gradations with a non-glare, matte finish for easy reading in any lighting conditions
