# Hydration

## Squwincher® Liquid Concentrate

### Full Sugar

### Squwincher

Squwincher hydration solutions contain a balanced source of sodium & potassium - key electrolytes necessary to hydrate the body. Proper hydration means the fluid level in your body is where it should be....balanced.

Squwincher's dedication to providing quality hydration products and convenient, innovative and economical packaging has made them "The Drink of Industry."

### 64oz Liquid Concentrate

- 64oz concentrate mix, yields 5 gallons
- Mix 1 part concentrate to 9 parts water
- Low sodium
- Gluten free
- Formula: Regular

### Lens Selection Chart

More than ornamental, Gateway Safety lens options serve a specific function. This lens selection chart provides a general guideline for use. However, always consult your safety director to determine the proper lens option for each application. Unless otherwise noted, all Gateway Safety lenses feature an antiscratch coating for extra durability and block 99.9% of UVA, UVB and UVC light, up to 380 nm.

These un-tinted lenses are ideal for indoor and general purpose applications.

Clear

These lenses provide a significant level of contrast, particularly in low-light applications.

Amber

Pacific Blue

These tinted lenses significantly reduce bright light to minimize eye strain and fatigue.

Gray

Mocha

These lenses reflect some bright light while allowing a moderate amount of light through the lens.

Clear In/Out Mirror

Bronze Mirror

Pink Mirror

These mirrored lenses significantly reflect bright light to reduce eye strain and fatigue.

Red Mirror

Silver Mirror

Blue Mirror

IR filter lenses are for use around light welding, brazing or cutting applications only.

IR Filter Shade 5.0

**VLT Chart** VLT (Visual Light Transmittance) is the amount of visible light (+/- 2%) that passes through the lens.

Clear.....	92%	Pink Mirror.....	37%
Amber.....	89%	Red Mirror.....	14%
Pacific Blue.....	62%	Silver Mirror.....	23%
Gray.....	14%	Blue Mirror.....	23%
Mocha.....	23%	IR Filter 5.0 Shade.....	2%
Clear Indoor/Outdoor Mirror.....	50%		
Bronze Mirror.....	50%		

### Protection Icons to Look For

Each icon packs a lot of information into a little bit of space. Don't take them lightly. When choosing personal protection, consider whether the "mark" is appropriate for your application.

When you see the **ANSI Z87.1+ Certified** icon, you know that both Gateway Safety and an independent, third-party laboratory regularly test and certify that this product meets or exceeds the ANSI Z87.1+ standard.

When you see the **CSA Z94.3 Certified** icon, you know that both Gateway Safety and an independent, third-party laboratory regularly test and certify that this product meets or exceeds the CSA Z94.3 standard.

When you see the **Meets ANSI Z87.1+** icon, you know that Gateway Safety regularly tests and certifies that this product meets or exceeds the ANSI Z87.1+ standard.

When you see the **Meets CSA Z94.3** icon, you know that Gateway Safety regularly tests and certifies that this product meets or exceeds the CSA Z94.3 standard.

When you see the **Meets U.S. Military Ballistic Impact Requirements** icon, you know that Gateway Safety tests and certifies that this product meets or exceeds the ballistic impact resistance requirements for eyewear in US Military Performance Specification MIL-PRF-32432(G1).

When you see the **99.9% UV-A, UV-B and UV-C Protection** icon, you know that Gateway Safety regularly tests and certifies that this product blocks 99.9% of UV-A, UV-B and UV-C radiation up to 380nm.

When you see the **c-UL US LISTED** icon, you know that Underwriters Laboratories is the independent, third-party agency that has certified that this product meets the ANSI Z87.1+ and CSA Z94.3 standards. Confirmation can be found in their Online Certifications Directory at [www.ul.com](http://www.ul.com).

When you see the **UL LISTED** icon, you know that Underwriters Laboratories is the independent, third-party agency that has certified that this product meets the ANSI Z87.1+ standard. Confirmation can be found in their Online Certifications Directory at [www.ul.com](http://www.ul.com).

When you see the **X<sup>3</sup> ANTI-FOG** icon, you know this product is available with our premium fog-fighter, which is longer-lasting and more effective than competing anti-fog products.

When you see the **D3** icon, you know that Gateway Safety tests and certifies that this product meets ANSI Z87.1-2015 requirements for the **D3** (droplets/splash) rating.

When you see the **D4** icon, you know that Gateway Safety tests and certifies that this product meets ANSI Z87.1-2015 requirements for the **D4** (dust) rating.

All certification information is accurate as of the print date of this catalog. For updated information and certifications visit ([www.ul.com](http://www.ul.com)).

Danger-2	12	3" x 1000'	2 Mil Red Danger	6175599

The ultimate Chill Tie® for active wear is a kerchief filled with a special non toxic polymer, that when soaked in water activates and will keep you cool for hours. Chill Tie® cooling neck ties are made of durable cotton or poly-cotton blended fabric to ensure durability and comfort.

- Chill Tie® is proudly made in the U.S.A. by professional garment makers
- Finished tie ends are stronger and less likely to tear or fray, providing prolonged use of your tie
- Edges are sewn on smoothly and not bound, for better comfort and longevity
- Each tie is individually wrapped and labeled with activation instructions
- Non toxic and environmentally friendly
- Special polymer expands multiple times in size, preventing it from leaching through material

# Batteries

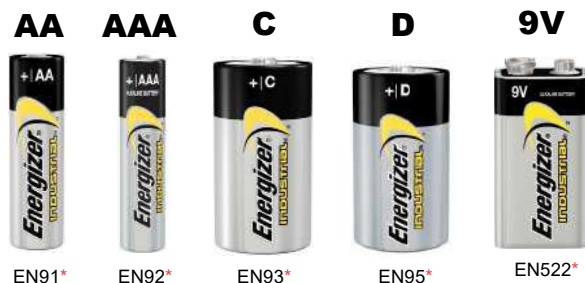

## Alkaline & Non-Alkaline

Since its commercial introduction in 1959, the Alkaline battery has advanced to a dominate position in the portable battery market. This came about because the Alkaline system is recognized to have several advantages over Carbon-Zinc batteries, which are:

- Greater cost savings
- Higher energy density
- Superior service performance at all drain rates
- Superior cold temperature performance
- Longer shelf life
- Greater resistance to leakage

Note: Batteries have a shelf life of 7 years, with the exception of the 9V battery, which has a 5 year shelf life.

MFR #	Qty/Case	Qty/Pk	Size	Terminal	Volt	Control #

# Flashlights

## LED & Intrinsically Safe

### Safety Flashlight 2AA Intrinsically Safe

- Lamp output: 40 lumens
- Lamp life: Lifetime
- Division 1, Class 1 rated (internationally approved)
- Shatterproof lens
- Impact-resistant (survives 1 meter drop test)
- Waterproof (meets IEC 60529 IPX7 Standards)
- Requires (2) AA batteries (not included)

MFR #	Qty/Case	Color	Battery	Control #
MS2AALED	6	Orange	2-AA	2512709

\* Limited quantity available

### Safety Flashlight 2D Intrinsically Safe

- Lamp output: 150 lumens
- Division 1, Class 1 rated
- Shatterproof lens
- Waterproof (meets IEC 60529 IPX7 Standards)
- Requires (2) D batteries (not included)

MFR #	Qty/Case	Color	Battery	Control #
ENISHH25E.1	4	Orange	2-D	2512740

### General Purpose Economy LED Flashlight 2D

- Lamp output: 25 lumens
- Requires (2) D batteries (not included)

# GFCI Plugs

## LE Inline & Triple Tap

**TOWER**  
Manufacturing Corp.

### Inline GFCI Cord

- Protection: Open and grounded neutral
- Operation temp range: -35° C to +66° C
- Cord: 12/3 AWG SJTW
- Rating: 15 amp, 125 volt/60 Hz, 1875W
- Surge suppression: 160 joules
- Protection for 2-and 3-wire grounded appliances and tools
- UL listed, CUL approved and meets OSHA standards for construction site usage
- Allows for compliance to NEC Article 527 “temporary installations”
- Rainproof rated, impact-resistant and LED power on indicator
- Fits most indoor and outdoor receptacles

MFR #	Qty/Case	Length	Reset	Control #
30438018-01	25	18"	Auto	1502900

### Triple Tap With Inline GFCI

- Protection: Open and grounded neutral
- Operation temp range: -35° C to +66° C
- Cord: 12/3 AWG SJTW
- Rating: 15 amp, 125 volt/60 Hz, 1875W
- Surge suppression: 160 joules
- Protection for 2-and 3-wire grounded appliances and tools
- UL listed, CUL approved and meets OSHA standards for construction site usage
- Allows for compliance to NEC Article 527 “temporary installations”
- Rainproof rated, impact-resistant and LED power on indicator
- Fits most indoor and outdoor receptacles

### Triple Tap Right Angle GFCI Plug

- Protection: Open and grounded neutral
- Operation temp range: -35° C to +66° C
- Cord: 12/3 AWG SJTW
- Rating: 15 amp, 125 volt/60 Hz, 1875W
- Surge suppression: 160 joules
- Provides protection for 2-and 3-wire grounded appliances and tools
- UL listed, CSA approved and meets OSHA standards for construction site usage
- Allows for compliance to NEC Article 305-6 “temporary wiring”
- Rainproof, impact-resistant and LED power on indicator
- Fits most indoor and outdoor receptacles
