

Putney Wraparound Childcare

Illness, Accidents and First Aid Policy

At Putney Wraparound we will deal promptly and effectively with any illnesses or injuries that occur while children are in our care. We take all practical steps to keep staff and children safe from communicable diseases.

All parents or carers must complete the **Medical Form** when their child joins the Club, requesting permission for emergency medical treatment for their child in the event of a serious accident or illness.

We will record any accidents or illnesses, together with any treatment given, in our Accident Book. Putney Wraparound cannot accept children who are ill. If any children are ill when they first arrive at the Club we will immediately notify their parents or carers to come and collect them. Any children who have been ill should not return to the Club until they have fully recovered, or until after the minimum exclusion period has expired (see table at the end of this policy).

First aid

There will always be a member of staff on duty that has a current first aid certificate and has attended a 12 hour paediatric first aid course. This ensures that there is a qualified first aider present and available at all times when the Club is running. We will take into account the number of children and layout of the premises to ensure that first aiders are able to respond quickly to any incident.

The location of the first aid box and a list of qualified first aiders are clearly displayed at the Club. The designated First Aider regularly checks the contents of the first aid box to ensure that they are up to date, appropriate for children and comply with the Health and Safety (First Aid) Regulations 1981.

The manager will ensure that a first aid kit is taken on all outings and that at least one member of staff on the outing holds a current paediatric first aid certificate.

Procedure for a minor injury or illness

The first aider at the session will decide upon the appropriate action to take if a child becomes ill or suffers a minor injury.

- If a child becomes ill during a session, the parent or carer will be asked to collect the child as soon as possible. The child will be kept comfortable and will be closely supervised while awaiting collection.

- If a child complains of illness which does not impair their overall wellbeing, the child will be monitored for the rest of the session and the parent or carer will be notified when the child is collected.
- If a child suffers a minor injury, first aid will be administered and the child will be monitored for the remainder of the session. The parent or carer will be notified when the child is collected.
- If necessary, the child's parent will be asked to collect the child as soon as possible.

Procedure for a major injury or serious illness

In the event of a child becoming seriously ill or suffering a major injury, the first aider at the session will decide whether the child needs to go straight to hospital or whether it is safe to wait for their parent or carer to arrive.

- If the child needs to go straight to hospital, we will call an ambulance and a member of staff will go to the hospital with the child. The staff member will take the child's **Medical Form** with them and will consent to any necessary treatment (as approved by the parents on the **Medical Form**).
- We will contact the child's parents or carers with all urgency and if they are unavailable, we will call the other emergency contacts that we have on file for the child.
- After a major incident the manager and staff will review the events and consider whether any changes need to be made to the Club's policies or procedures.
- We will notify Ofsted and child protection agencies in the event of any serious accident or injury to a child in our care as soon as reasonably possible and within 14 days at the latest.
- We will notify HSE under RIDDOR in the case of a death or major injury on the premises (eg broken limb, amputation, dislocation, etc - see the HSE website for a full list of reportable injuries).

Communicable diseases and conditions

If a case of head lice is found at the Club, the child's parents or carers will be discreetly informed when they collect the child. Other parents will be warned to check their own children for head lice, but care will be taken not to identify the child affected.

If an infectious or communicable disease is detected on the Club's premises, we will inform parents and carers as soon as possible.

If there is an incident of food poisoning affecting two or more children looked after at the Club the Manager will inform Ofsted as soon as possible and within 14 days at the latest.

If there is an outbreak of a notifiable disease at the Club, we will inform the local health protection unit, HSE under RIDDOR (if appropriate), and Ofsted.

Medication (see Administering Medication Policy)

Wherever possible, children who are prescribed medication should receive their doses at home. If it is necessary for medication to be taken during sessions at the Club children should be encouraged to take personal responsibility for this, where this is appropriate.

Sun Protection

Putney Wraparound staff understands the dangers posed to children and themselves by over exposure to the sun.

In hot weather, parents/carers are encouraged to provide sunscreen for their children. Children will also be encouraged to wear a hat if playing outside in the sun.

Staff may apply sunscreen to children who cannot do so for themselves (where prior written permission has been given by the parent/carer).

In hot weather, staff will encourage children to drink plenty of water. Staff should also ensure that shady areas out of the sun are always available to children when playing outside.
