

Miele Coffee Maker

Quick Instructions

Step 1 Open the Door

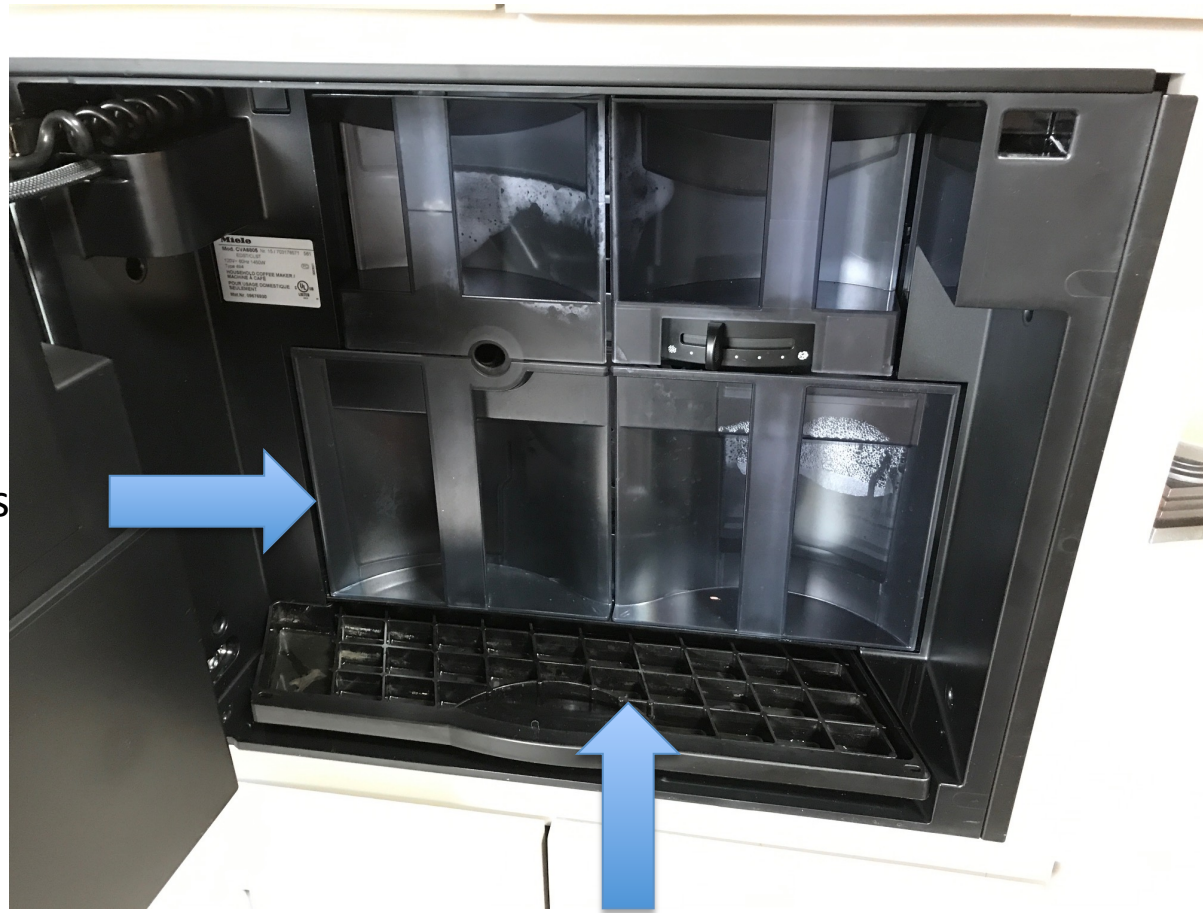

Step 2 – Add Coffee Beans

Step 3 – Empty drip tray into sink

Empty old
Coffee grounds

Drip tray here

Drip Tray removal – in the sink

Important

- No need to add water. It is plumbed automatically
- Do not use “flavored coffee beans” ex. Hazelnut or vanilla etc. It will break the coffee maker.

Step 4 - Add milk if desired for drinks
Store Milk canister in refrigerator

Cleaning

The Coffee maker will walk you through the steps when needed.

You will need these when cleaning. In the cab above coffee maker. They catch the run off.

Cleaning

There is two cleaning occasionally required.

Look for these in the cab above coffee maker. One is for the milk piperwork and one is for descaling.

Step 5 – Make your drink

Turn power on
and select drink
