

Limited Warranty Policy

All Machinery Maintenance strives to deliver the highest quality parts, service and repairs.

If there is ever anything that fails to meet your expectations, every effort will be made to correct it. Due to the nature of the repair, equipment, machinery and the unpredictability of operators, operating conditions as well as maintenance or lack thereof, all of our repairs are covered only under a 30-DAY limited warranty period from date of repair as shown on accompanying invoice that has been paid in full. By paying the invoice, Customer agrees to the terms and conditions of this warranty policy presented herein. Payment is due on receipt for all work completed by All Machinery Maintenance LLC. No warranty is offered on customer accounts that have a past-due balance. Should a problem occur during the 30-day limited warranty period, please bring it to our attention immediately.

Any unit to be considered for warranty coverage must be returned to our shop for inspection or you must schedule a time and date for a mechanic to return to your location or the location of the equipment. Warranty acceptance is at the sole discretion of All Machinery Maintenance LLC. and dependent on visual assessment and inspection of each unit on a case by case basis. If it is determined that the unit is covered under warranty, we will repair it at no charge to you.

This warranty does not cover units which have been disassembled or repaired by anyone other than All Machinery Maintenance LLC. nor failure due to misuse, abuse, neglect, accident, or tampering, and does not cover any customer loss or expense resulting from the unit being out of operation. Units with components suffering from pre-existing damage or wear and tear that has been suggested for repair or replacement which was declined by customer for any reason including time, cost or inconvenience will not be covered under this warranty. To be eligible for warranty coverage all parts used for repair of any unit must be sourced and supplied by All Machinery Maintenance. This means no warranty will be provided when using customer-supplied parts. Units or components of units damaged during transit are not covered under this warranty. All units must be installed and operated according to original manufacturer's specifications.

No other agreements, qualifications, or modifications to the warranty terms – whether verbal or written – are authorized to be made by any agent or representative of All Machinery Maintenance LLC and shall not supersede the terms of this policy contained herein. If it is found that the unit will not be covered under this warranty policy for any of the reasons stated above, all expenses such as travel and hourly labor rates will be the responsibility of the customer.

The terms of this warranty policy are subject to change at any time with or without notice to customer.
Thank you for trusting All Machinery Maintenance LLC. for all of your repair needs!
