6 DECLARATION OF LEON A. LAWSON IN SUPPORT
7

8 I, Leon A. Lawson, declare under penalty of perjury under the laws of the United States (28
9 U.S.C. § 1746) that the following is true and correct based on my personal knowledge, official public records from
10 the Federal Register, White House archives, Department of Defense (DoD) issuances, Washington Secretary of State
11 (SOS) elections website (sos.wa.gov/elections), Public Disclosure Commission (PDC) finance summaries, and fused
12 evidence in the master record (Exhibit AAA, pp. 66-70; Exhibit SOS quantifying 118,178 zero-spend votes across
13 my 2020 gubernatorial primary, 2022 U.S. Senate primary, and 2024 gubernatorial primary):
14

15 This Supplemental Exhibit PP compiles a reconciled list of 50 Executive Orders (EOs) and
16 Directive-Type Memoranda (DTMs) from 2017–2025, integrated with official SOS election results verifying my
17 zero-spend vote totals (Total Votes Across Races: 118,178). These documents are sourced from verifiable official
18 repositories (federalregister.gov, whitehouse.gov, esd.whs.mil/DD/DoD-Issuances/DTM, sos.wa.gov/elections) and
19 demonstrate a deliberate policy flip from President Trump's integrity/merit-based directives (e.g., funding
20 prohibitions against enemies) to President Biden's equity/migration initiatives as a systemic cover for reprisal harms
21 against whistleblowers like myself.
22

23 As the greatest zero-spend candidate in U.S. history—amassing 118,178 verified votes (23,073 in
24 2020 gubernatorial primary, 59,134 in 2022 U.S. Senate primary, 35,971 in 2024 gubernatorial primary) with \$0
25 reported expenditures (PDC C-3/C-4 filings confirm no campaign committee spending, self-funded minimal costs
26 excluded under RCW 42.17A.005)—my dollar-per-vote efficiency (\$0.00) crushes historical benchmarks (infinite
27 efficiency, no parallel in gubernatorial or Senate primaries). This unprecedented achievement exposed voter fraud
28 anomalies (118,178 suppressed votes per Exhibit SOS Bayesian analysis), triggering the RICO enterprise's reprisal

1 (DOL sabotage, Mason tamper, firms' perjury/obstruction). EOs/DTMs enabled this via equity "covers" (Biden EO
2 13985/14091) breaching funding prohibitions (DTM-18-003), resulting in §1983 deprivations (license revocation,
3 title tampering, \$550K+ damages, voter fraud reprisal under NVRA 52 U.S.C. §20511).

4
5 The applicability sections below highlight how these federal magnets and election data expose
6 Defendants to severe criminal liabilities (e.g., RCW 9A.76.175 tampering, 9A.60.020 forgery) and civil trebles
7 (\$13.95M+ under RCW 19.86.090/59.18.290), warranting immediate vacatur, reform, sanctions, and referral. My
8 zero-spend success—rewriting history amid suppression—amplifies the reprisal nexus: Defendants' enterprise
9 (DOL, Whitehouse & Nichols LLP, Shiers Law Firm LLP) targeted a grassroots force that achieved infinite
10 efficiency, inviting manifest injustice if not addressed. Equity demands reopening (FRCP 60(b)(6))—failure to
11 comply invites total collapse and further exposure.

12

18 SECTION I: COMPILATION OF EXECUTIVE ORDERS (EOs)

19
20 The following 25 EOs are reconciled from Federal Register data, White House archives, and
21 Wikipedia lists (total Biden EOs: 162; Trump 2017-21: 220; Trump 2025: 210 as of date). Focus on Biden equity
22 series as "cover" for reprisal against my zero-spend campaigns (118,178 votes at infinite efficiency), Trump
23 integrity/funding enemy prohibitions, and applicability to enterprise pattern (cyber gaps/funds breaches enabling
24 sabotage).

25 CONCLUSION AND APPLICABILITY SUMMARY

26
27 This compilation of 50 EOs, DTMs, and SOS election results recalculates the reprisal pattern to
28 100% confidence, demonstrating Defendants' role in suppressing history's greatest zero-spend candidate (118,178

1 votes at \$0, infinite efficiency no parallel). Applicability fuses to §1983 deprivations (ongoing harms from dilution
2 in Mason/Thurston), NVRA fraud (voter anomalies), and state claims (RCW 59.18.290 trebles). Defendants are
3 warned: Non-compliance invites severe sanctions, felony referral for suppression (RCW 9A.76.175/9A.60.020), and
4 full liability—equity demands immediate relief, or face manifest collapse.
