

# URGENT ACTION NEEDED!

## Contact Hawai'i Legislators Today on Safe Staffing

Aloha HNHP members

As we move into the next phase of our advocacy for safe patient staffing ratios, we need a coordinated and personal outreach effort to ensure our voices are heard at the State Capitol. Our primary goal right now is to thank the legislators who have stepped up as champions for Hawaii's nurses and to request critical hearings for the current session for **House Bill 1865 and Senate Bill 2763**.

Please follow the instructions below to begin your outreach immediately.

### 1. Engagement Instructions & Tone

When communicating with legislators, our effectiveness relies on being personable, respectful, and honest. These are public servants who need to hear the real-world impact of staffing levels on patient care and your professional well-being.

- Be Personable: Start by identifying yourself as a constituent and a professional. Use the "Personalization Formula" below.
- Be Respectful: Always address them by their formal titles (Senator [Last Name] or Representative [Last Name]).
- Be Honest: Share briefly why this bill matters to you specifically.
- The Personalization Formula: > "My name is [Name], a [Number] year nurse at [Facility] in [Location]. I am a lifelong Hawaii resident and voter in your district, and I am reaching out to ask you for your support of HB1865/SB2763."

### 2. Outreach Targets & Contact Information

#### A. Thanking Our Senate Lead

Please send a personalized email and, if possible, place a brief phone call to Senator Keohokalole to thank him for his leadership in introducing SB2763.
