VU'S BREW TEA BLEND

Tea blending is an art form as much as it is science. It's probably an impression that you can take the finest ingredients, mix them all together and you have the best tea blend that money can buy. This gives the wrong idea about tea blending. The mark of any good tea blend is balance. Tea blending is imaginative and yet cautious at the same time.

Why Us?

-  Competitive pricing
-  Assured quality standards
-  Good nutritional value
-  Timely delivery
-  Long term business collaboration

ABOUT OUR PREMIX RANGE

Premixes usually refers to a substance or object which is mixed among three or more ingredients or elements in an early stage in the manufacturing and distribution process. The major ingredients are Tea & Coffee in various flavors. Tea premixes refer to those easily prepared drinks that mostly come in powdered form. They are mixed with water or milk to improve the overall metabolism. It also offers much better functionality and hydration for a long period of time.
