## URJA PROMOTOR

### Helping Farmers Fighting Global Warming

#### Abstract

An amazing discovery a revolution in the natural nontoxic all in one crop protection and yield enhancer system, after years of research and hard work, we are succeeded to boost photosynthesis process. This innovative breakthrough will open new avenues whole world will be benefited, it enhances the agricultural productivity to the optimum with no harmful residues.

#### Introduction

Introducing **SARVATRA URJA PROMOTOR** the space age booster, Amalgamation of INDIA's great "Ayurveda & the modern Chemistry. The unique combination & collaboration of these two things have created Miracles which will change the face of the world, vital break through and the major discoveries are made in the most important agricultural sectors. It increases the fertility & a high yield that will beak the records, with natural & fresh test also guaranteed zero residue. It will absorb multiple times more pollutant gases than normal conditions from atmosphere & releases multiple times more fresh OXYGEN in to atmosphere thus reducing the effects of global warming 10 times more with the commercial benefits.

#### How it works

REDEFINING THE RESOURCES

*Pollutant for human are high yield nutrient for the plants. We are living in global warming era, soil has limited plant nutrient atmosphere has more. So atmospheric pollution may utilize to increase yield manifolds.*

A non-toxic, non-hazardous liquid that will boost the Breath in & Breath out capacity of any plant. Normally plant leaves are loaded with bacteria and viruses over it which resist the photosynthesis action and breathing. In such conditions they could only breathe 10% to 12% of the capacity.

**SARVATRA URJA PROMOTOR** eliminates bacteria and energizes the leaves to breath at 100% efficiency which can be observed within 10 hours of spraying. Co2 is a life line for every plants, plants inhale more co2 more they will grow. **SARVATRA URJA PROMOTOR** goes in to the leaves & modifies the photosynthesis process.

**SARVATRA URJA PROMOTOR** is a modern marvel made of 100% safe ingredients which improves the plants food production mechanisms (Primary & secondary metabolism). The all contributes to increase in agricultural yield with natural test & zero harmful residue.

#### Mode of Action

1. Enhances turgor pressure & carbon fixation (results in rapid growth & maturity).
2. Increases intercellular carbon dioxide level in amount sufficient to inhabit photorespiration.
3. Increases environmental tolerance including high light intensity, heat, water stress, nutrient stress etc.

4. Reduces water requirement.
5. Eliminates pathogens & harmful organisms through hypoxia & sanitization.

## Unique Features

1. Improves Photo Synthesis.
2. Inhibit photorespiration
3. Improves Primary & Secondary metabolism.
4. Improves plant sugar cycle.
5. Improves plant climatic resilience factor.
6. Low-cost natural substitute of chemical fertilizers.
7. Work against Pathogens & Harmful Organisms.
8. Do not contaminate the soil.
9. Applicable to all crops.
10. A single product applicable for all problems.
11. Eliminate various diseases due to contaminations of chemical fertilizers.
12. A Zero residue product.
13. Increases the agricultural productivity 20 to 40%.
14. Not harmful to human being while spraying.
15. To boost the carbon sequestration process.

## Composition % (label claim): -

Amine based emulsifier 9%

Proprietary Mixture 91%

## MRL as per European Norms:

MRL as per European Norms. Tested by TUV Pune.

## Directions of use

Fill the mixing tank with a required amount of clean water. Add **SARVATRA URJA PROMOTOR** 5ml to 1000ml ratio. Agitate the tank, mix thoroughly. Adopt multiple “high volume low concentration sprays” principle. Spray all parts of the plant i.e. Fruits, leaves, twigs, and branches. Thoroughly wet all these surfaces till runoff. Spray once in week in the evening time.

## Manufactured in India by

**KSZ TECHNOLOGIES**

Recognized By : Department for Promotion of Industry and Internal Trade Ministry of Commerce & Industry Government of India

An ISO 9001/2015 Certified Company

D8/220, Bhumi World, Village Pimplas, Bhiwandi – 421302, Maharashtra, India
