Tea, coffee , cocoa & rubber plantation

BENEFITS

**PROMOTE RAPID
GROWTH**

**SPREADS
UNIFORMLY**

**SUPPORT EVERY
GROWTH STAGE**

FEED INSTANTLY

**SUPPORT PLANT
HEALTH**

SARVATRATM

URJA PROMOTOR

Agricultural &
Horticultural

Eco-Friendly,
Bio-degradable,
Non-Phytotoxic

DIRECTION FOR USE & DOSAGE:-

Dilution Ratio : 5ml : 1000ml

Mixing :

Fill the mixing tank with a required amount of clean water.
Add the required amount of E Liquid Fertilizer
Agitate, the tank, mix thoroughly, preferably contentiously.

Spraying :

Adopt multiple "high volume, low concentration sprays" principle
Spray all parts of the plant i.e. Fruits, leaves, twigs, and branches.
Thoroughly wet all these surfaces till runoff.
Runoff is not wastage.

Storage & disposal :

Store product in closed original container in a cool, well ventilated shed.
Ensure container is tightly sealed when storing.
Thoroughly rinse containers after use.
Do not dispose off undiluted oil.
Do not burn empty containers.

Precautions :

If swallowed seek immediate medical attention
Incompatible pesticides & fungicides
Do not mix known incompatible pesticides & fungicides with x 10 bio-treat.
