### BAKED IN A WOOD FIRED OVEN

We use a Marana Forni rotary wood fire oven made in Italy. This revolutionary oven always cooks at the ideal temperature, thanks to its rotating plate. Making for the perfect pizza every time.

### WHAT MAKES OUR PIZZA GREAT

We are dedicated to using fresh seasonal ingredients & making as much of our products from scratch as possible. We take pride in all the food we create, that's why we have fresh dough, house made pizza sauce & quality toppings.

### WHAT IS NEAPOLITAN PIZZA

Authentic Neapolitan pizza is 12", & very thin in the center, but has a nice puffy crust.

Neapolitan pizza has a varying degree of leoparding. This char on the sides & bottom is a subtle layer of flavor & texture. There is a careful balance of crust, sauce, & cheese. The liquid from the sauce & cheese creates a hot molten area at the center.

### ASK FOR YOUR PIZZA "PARBAKED & UNCUT" TO FINISH IT AT HOME

- 1 Preheat oven to 375 degrees.
- 2 Place pizza on stone or pan in oven.
- 3 Cook for 4-6 Minutes.

We recommend that customers ordering pizza to go request that the pizza be "parbaked & uncut." We will leave any finishing toppings on the side so that you may dress your pizza after re-heating it at home.

**KUNA** Consuming raw or undercooked meats, poultry, seafood, shellfish, unpasteurized milk or eggs may increase your risk of foodborne illness.

## Salad

**Side:** Lettuce, tomato, red onion, and St. Louis cheese. Side of house-made vinaigrette. 5
